

ACTIVE INGREDIENT:		
Maneb (manganese ethylene bisdithiocarbamate)	1%	
INERT INGREDIENTS	65%	
	TOTAL	66%

DIRECTIONS

TOBACCO PLANT BED: To control **TOBACCO BLUE MOLD** in the seed bed it is necessary that this material be applied as a dust with a suitable dust gun without further mixing. Treatment of the plants should begin when the plants' leaves are the size of a dime. Dust twice weekly until transplanting time, making certain a portion of the dust is in an even and thorough dusting. If necessary, between regular dusted applications, the treatment should be repeated as often as the rain as practicable.

AMOUNT OF DUST REQUIRED FOR APPLICATIONS:

- 1st to 4th application: 2 1/2 lbs. per 100 sq. yds.
- 5th and 6th application: 2 lbs. per 100 sq. yds.
- All other applications: 1 1/2 to 4 lbs. per 100 sq. yds.

IT IS VERY IMPORTANT THAT IT BE UNDERSTOOD THAT MANEB MUST BE APPLIED BEFORE DISEASE INFECTION OCCURS IN THE PLANTS.

CAUTION

Avoid eye irritation or nose and throat. Do not breathe dust. Do not get in eyes, on skin or on clothing. This product is poisonous to fish. Keep out of any body of water. Apply when weather conditions favor drift of dust from your plants. Dispose of wastes by burying in a deep hole, away from water bodies. Containers should be destroyed if they are worn, with the turning. Keep out of reach of children.

NOTICE: Seller warrants that this product is an original, new, description and is reasonably fit for the purposes stated in the label when used in accordance with directions. Seller does not warrant against other makes. **NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE** is made, this warranty is limited to the product as described. Seller's liability is limited to the replacement of the product and the cost of the freight. Buyer assumes the risk of loss of the product, and the cost of the freight, after the product is delivered to the buyer. Seller is not responsible for getting the product to the buyer.

CAUTION: KEEP OUT OF REACH OF CHILDREN
