Abstract

Kamp Out of Reach of Children. See right side panel for first aid and additional precautionary statements.

Sold by:

STANCO LABORATORY, INC.

2000 E. HUNTINGTON AVE. #100

SAN ANTONIO, TEXAS, MARCH 1964

When Bio-Clean III is used as directed, it will kill and prevent development of *Chara pyramidea* (grass), *Phormidium uncinatum* (black alga), *Phormidium rotii* (Square D alga), *Lyngbya wollei* (blue-green) and other swimming pond algae.

Bio-Clean III is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or products with other water-treating chemicals.

Bio-Clean III works best when added by itself directly to pool water. **Bio-Clean III** in use solution is non-corrosive to swimming surfaces.

Abstract

Keep Out of Reach of Children. Caustic.
Causes severe eye and skin damage. Do not
get in eyes, on skin or clothing. Harmful or
fatal if swallowed. Wear goggles or face
shield and rubber gloves when handling.
Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, protein solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician.

NOTE TO ATTORNEYS

Probable maximal damage may contribute to the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

STORAGE AND DISPOSAL

More lightly soiled, rinsed empty containers thoroughly with water and cleaned.
