

leaves the fabric and imparts a residual self sanitizing and bacteriostatic finish to the laundered article.

The mildew inhibition of D-775 MILDEW PREVENTATIVE lasts at least four weeks when used as directed. It is designed for commercial and institutional laundry use by addition to the finishing or sour step. Fabric may also be preserved against mildew by soaking in a solution of D-775 MILDEW PREVENTATIVE. For recommended solution concentration, see label directions.

The laundering of fabric may not eliminate the pathogenic bacteria commonly found in soiled materials. The fabric may have a bacteriostatic and antibacterial finish, and although it may be self sanitizing, it is not a disinfectant. Use D-775 MILDEW PREVENTATIVE as directed for best results. For more information on the use of D-775 MILDEW PREVENTATIVE, see the label directions.

At the same time, D-775 MILDEW PREVENTATIVE imparts to the laundered garment additional bacteriostatic and antibacterial activity. These finishes will effectively resist the formation of mold and mildew, caused by moisture and dirt contamination. The bacteriostatic activity of D-775 MILDEW PREVENTATIVE inhibits the growth of bacteria. The residual self sanitizing activity reduces the number of bacteria from dirt contamination.

All of the above beneficial activity - mildew protection, sanitizing, residual self sanitizing and bacteriostatic - occur when the fabric is treated as directed.

D-775 MILDEW PREVENTATIVE is economical to use because it is concentrated. It should be handled with care.

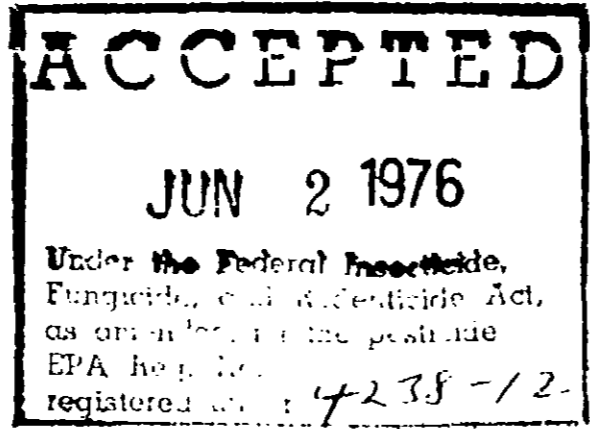

**DANGER:**

Keep Out of Reach of Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, or a solution of oil if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Extensive mucosal damage may contraindicate the use of gastric lavage. Sensitive to gastric electrolyte shock, respiratory depression, and convulsions may be observed.

**D-775 MILDEW PREVENTATIVE**

Twin Chain Quaternary Ammonium Compound Concentrate

Mildew Inhibitor for Commercial and Institutional Use

Residual Bacteriostatic and Self-Sanitizing Activity\*

Active Ingredient

Didecyl dimethyl ammonium chloride 50

Inert Ingredient

50

EPA Registration No. 4238-12

EPA Establishment No. 4238-NJ-1

Net Weight lbs.

Net Volume gals.

\* Under humid or dirt contamination conditions. See left panel for further comments.

**DANGER:**

KEEP OUT OF REACH OF CHILDREN. SEE LEFT PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

For lasting mildew prevention, use D-775 MILDEW PREVENTATIVE as directed.

For 2 week protection, use 1/2 oz. per 100 pounds of fabric (dry weight).

For 4 week protection, use 3/4 oz. per 100 pounds of fabric (dry weight).

At the use level, D-775 MILDEW PREVENTATIVE will sanitize and impart to the laundered fabric self sanitizing and residual bacteriostatic finish. These activities have been confirmed against Klebsiella pneumoniae ATCC No. 4352 and Staphylococcus aureus ATCC No. 6538.

Repeat as necessary. Use the appropriate amount of D-775 MILDEW PREVENTATIVE in relation to volume of water, then add to the wash cycle as directed.

For best results, repeat washing after each washing.

For best results, dry clean. Retain and use for future washings. For more information on the use of D-775 MILDEW PREVENTATIVE, see the label directions.

At the use level, D-775 MILDEW PREVENTATIVE will give long lasting protection, for 2 to 4 weeks, against mildew.

Repeat as necessary. Use the appropriate amount of D-775 MILDEW PREVENTATIVE in relation to volume of water, then add to the wash cycle as directed.
