Tacoma, WA 98439

MAY 19 1992

Dear Dr. Gauditz:

Subject: Vole Bait Containing Zinc Phosphide
EPA Registration No. 4271-16
Your Letter Dated December 4, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable subject to the comments listed below.

1. On the left rear panel, in the first sentence of the second paragraph under "WARNING.", change "Place" to "Store". It would be impossible to follow the use directions which appear elsewhere on the label for this product without having bait be "accessible to . . . non-target wildlife".
2. On the left rear panel, in the first sentence of the third paragraph under "WARNING.", change "are" to "area".
3. On the right rear panel, delete item "5." under "DIRECTIONS FOR BAIT PLACEMENT". Directions for disposal of containers already appear on the front panel of the label.
4. We would prefer that the section "GENERAL WARNINGS AND LIMITATIONS" be placed within the "DIRECTIONS FOR USE" immediately above "FOR USE IN ORCHARDS."

We have enclosed a stamped copy of the labeling for your records. Submit one copy of the finished labeling before releasing the product for shipment.

Sincerely yours,

Robert A. Forrest
