RECOMMENDATIONS

U S. D A REG. NO. 4297-14

Powdered Detergent No. 724 is recommended for use in schools and public institutions where cleanliness and bacterial control are vital such as corridors, restrooms, showers, and cafeterias. No. 724 contains special alkaline detergent salts capable of penetrating food-type soils. It is recommended in breweries, bakeries and restaurants for removal of proteinaceous soils found on kettles, food preparing equipment, tables, etc. No. 724 sanitizes as it cleans, thus reducing the numbers of bacteria and molds to safe levels. For cleaning, sanitizing and deodorizing food and beverage processing equipment including pipes, valves, utensils, homogenizers, tanks, etc., ell food processing equipment should be rinsed thoroughly with potable water after cleaning. Fowdered Detergent No. 724 will not damage metal, rubber, glass, and plastic surfaces when used as directed.

ACTIVE INGREDIENTS:

Sodium Dichloro-s-triazinetrione	5.0%
Sodium Metasilicate	15.0%
Sodium Dodecylbenzene Sulfonate	1.74
INERT INGREDIENTS	78.3%
	100.0%

(Provides 3.2% available chloring)

CHARACTERISTICS

Powdered Detergent No. 724 is an alkaline powdered detergent. (One (1) ounce per gallon of water provides 220 ppm available chlorine). It contains foam producing ingredients and is therefore not suitable for in-place cleaning and sanitizing, by circulating through food and beverage pipe lines. For inplace cleaning and sanitizing, use Powdered Detergent No. 723.

AFFLI CATION

Use Powdered Detergent No. 724 by diluting one ounce per gallon of water to clean, deodorize, and sanitize. At this concentration No. 724 will also brighten stainless steel. The above solution of No. 724 may be applied by mor cloth or brush or a soak tank may be used. Where cleaning is not a problem and deodorizing and senitizing are needed, a spray application of the above solution is recommended. All applications should be followed by a thorough rinse with potable water.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN

Avoid contact with skin and eyes.

In case of contact, wash thoroughly with water. In case of eye contact with solutions of No. 72\$, wash thoroughly, consult a physician immediately. Solutions of No. 72\$ should never come in contact with food. Harmful if swallowed. Avoid inhalation of dust.
