OCT 20 1975

UNDER THE FEDERAL INSECT
FUNGICIDE AND RODENTICIDE
FOR ECONOMIC POISON REGI
ED UNDER NO.

AQUA TURGE NO. 744 DISINFECTANT

FOR CLEANING, DISINFECTING, AND SANITIZING ANIMAL HOUSING AND EQUIPMENT; FOR SANITIZING POULTRY DRINKING WATER; FOR USE AS A SHOE BATH PRIOR TO ENTERING BARN AND POULTRY HOUSES; FOR USE AS A DEODORANT SANITIZING FOOD-PROCESSING EQUIPMENT.

AQUA TURGE NO. 744 DISINFECTANT is TUBERCULOCIDAL at a dilution of 3 ounces of AQUA TURGE NO. 744 DISINFECTANT to five gallons of water.

AQUA TURGE NO. 744 DISINFECTANT destroys hog cholera virus on inanimate environmental surfaces.

AQUA TURGE NO. 744 DISINFECTANT is not adversely affected by water hardness or low-temperature water.

AQUA TURGE NO. 744 DISINFECTANT has its own built-in indicator of germicidal activity. (When the amber color disappears, a fresh solution should be prepared.)

ACTIVE INGREDIENTS:

alpha-(p-Nonylphenyl)-omega-hydroxypoly (oxyethylene)-iodine complex	18.05%
Phosphoric Acid	16.00%

INERT INGREDIENTS:

	65.95%
Total	100.00%

Manufactured under the following U.S. Patents:
3,028,299 2,977,315 2,931,777

manufactured by
RELIANCE-BROOKS, INC.
3302 E. 87 St., Cleveland, Ohio 44127

AQUA TURGE NO. 744 DISINFECTANT

DIRECTIONS FOR USE:

Sanitizing Buildings and Equipment on the Farm: To sanitize surfaces of buildings, equipment, or utensils which have previously been thoroughly cleaned, use 1 ounce of AQUA TURGE NO. 744 DISINFECTANT in 5 gallons of water. Spray or swab solution on surfaces to be sanitized. Allow to drain dry without rinsing.

Sanitizing Poultry Drinking Water: Add 1 ounce of AQUA TURGE NO. 744 DISINFECTANT to every 10 gallons of drinking water. The regular use in the drinking water also helps keep the waterers free of mineral deposits.

Food Plant Sanitization: Use 1 ounce of AQUA TURGE NO. 744 DISINFECTANT in each 5 gallons of water as the final sanitizing rinse on previously cleaned food-processing equipment and utensils. Drain, but do not rinse. When used at this dilution (1:640), AQUA TURGE NO. 744 DISINFECTANT does not require a final potable water rinse, as prescribed in Federal Food Additive Regulation 121.2547.

Shoe Bath: To help prevent tracking disease organisms into poultry houses, farrowing houses, and hog barns, place a shoe bath inside the doorway, containing 3 ounces of AQUA TURGE NO. 744 DISINFECTANT per gallon of water. After scraping shoes outside doorway, stand in shoe bath for 30 seconds prior to entering building interior. Change shoe bath daily.

Deodorant: AQUA TURGE NO. 744 DISINFECTANT destroys many odors as it sanitizes and disinfects. For general deodorant applications (garbage pails, refuse containers), swab or spray on a solution of 1 ounce of disinfectant per gallon of water.

Cleaning and Disinfecting Buildings and Equipment on the Farm: BEFORE PROCEEDING AS INDICATED BELOW, remove all animals and feeds from

premises, cars, boats, trucks, and other equipment. Remove all litter and manure from floors, walls, and surfaces of barns, pens, stalls, chutes, and other facilities and fixtures occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances, saturating all surfaces with AQUA TURGE NO. 744 DISINFECTANT solution. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers. Ventilate buildings, cars, boats, and other closed spaces. Do not house livestock or employ equipment until treatment has been absorbed, set, or dried. All treated feed racks, mangers, troughs, automatic feeders, fountains, and waterers must be thoroughly rinsed with potable water prior to reuse.

THEN, clean and disinfect in one easy step with AQUA TURGE NO. 744 DISINFECTANT. Use ½ ounce of AQUA TURGE NO. 744 DISINFECTANT per gallon of water. Scrub surfaces to be cleaned and disinfected with a good brush or with a power sprayer. Start at the highest point of the building or equipment being cleaned, and work down. Let solution drain dry without rinsing.

DANGER: CAUSES EYE DAMAGE AND SKIN IRRITATION. Do not get in eyes, on skin, or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsions may be needed.

RINSE EMPTY CONTAINER THOROUGHLY WITH WATER AND DISCARD IT.
