**EXCLUSIVE DEODORIZING FORMULA**  
Fresh-scent action fights odor as it kills fleas.

Sulfodene  
**ASPCA**  
Flea & Tick Collar For Cats

**GUARANTEED 11 Month Flea Killer\***  
**GUARANTEED 6 Month Tick Killer\***

Aids in prevention of sarcoptic mange up to 5 months

A portion of the proceeds from your purchase of this product supports the work of The American Society for the Prevention of Cruelty to Animals

Sulfodene ASPCA Flea & Tick Collar for Cats provides full season, 11 month flea killing power (and 6 month protection against ticks). It's guaranteed!

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Do not open package until ready to use. This collar is intended for use as an insecticide generator and is not to be taken internally by man or animals. Not intended for use by humans. Do not allow children to play with this collar. Wash hands with soap and water after handling collar. Do not use on sick or debilitated animals or cats under 12 weeks of age.

Do not use other cholinesterase inhibiting insecticides on your animal while wearing collar. Some cats may be sensitive to this collar. Remove at first sign of irritation or adverse reaction (muscular tremor, salivation, vomiting and/or diarrhea).

The insecticide in this collar is a cholinesterase inhibitor.

**NOTE to Physician/Veterinarian:** Atropine only by injection is antidotal. Use only if symptoms of cholinesterase inhibition are present.

**ACTIVE INGREDIENTS:** Chlorpyrifos (0,0-diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate) . . . 3.0%  
**INERT INGREDIENTS:** . . . . . 97.0%

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Sulfodene ASPCA Flea & Tick Collar for Cats contains chlorpyrifos insecticide, one of the longest lasting flea and tick-killers available for use on cats. This collar will reach its maximum effectiveness within 2 to 3 days after placing it on the cat and will continue to protect your cat against fleas for 11 months and ticks for 6 months. Place the collar around cat's neck, buckle and adjust for proper fit. Cut off close to the buckle and dispose of excess length. The collar must be worn loosely so that two fingers may be placed between collar and cat's neck. If collar is worn too tightly, it may produce neck irritation. Fleas and ticks present in the cat's environment that may reappear on your pet will be killed by action of this collar. Collar's effectiveness is not diminished by normal wetting such as rainfall. Use only one collar on an animal at a time.

**STORAGE:** Store in original unopened container away from children.

**DISPOSAL:** Do not reuse empty box or collar. Wrap in newspaper and put in trash collection.

\*See top panel of box for details of unconditional guarantee.
