

immediately follow with a thorough watering to wash the insecticide into the soil where insects are feeding. For best control apply when the "grubs" are young & actively feeding near the soil surface in mid July & early August.

DIRECTIONS FOR USE (Cont.)
INSECT CONTROL AROUND THE HOME

To protect the dwelling and other buildings from possible insect infestations a band of granules may be placed around the building to control Ants, Brown Dog Ticks, Crickets, Earwigs, Fleas, Millipedes, Sowbugs, Springtails and Spiders. One half pound (8 ounces) of this product will treat (200 Sq. Ft.) a 5 foot wide band 40 ft long around the structure. This will act as a barrier against insects invading the home. Apply the protective band when insects have become troublesome or before they cause problems in the spring or early fall. Repeat one month later and then as needed for control but not more than once every 7 days. Consult your Agricultural Extension Service for the best time to treat in your area.

IMPORTED FIRE ANT

AS AN AID IN THE CONTROL AND REDUCTION OF FIRE ANTS

As an aid in the control and reduction of Imported Fire Ants treat individual Ant mounds measuring from 3 to 12 inches in diameter by applying 4 level tablespoonfuls (2/3 ounce) of granules evenly in a circle around the outer edges (3 to 4 feet from the center) of the mound. Finish the treatment then by applying 2 level tablespoonfuls (1/3 ounce) sprinkled evenly over the center of the mound. Best results will be obtained if mound is not disturbed after treatment thus allowing ants to come and go and to be exposed to the insecticide treated area. Repeat treatment as needed for additional control but not more than once every 7 days.

KNOW YOUR FERTILIZER SPREADER

The following spreader settings are offered for use with new equipment. Your used spreader may need calibrating. Since proper application is based on the spreaders condition with regard to age and use, your walking speed and the evenness of the terrain, your spreading equipment may require adjustments from the following figures. If you have reason to believe that your spreader is not calibrated correctly test apply by placing the amount for 500 Sq.Ft. into your spreader and apply to your pre-measured 500 Sq.Ft. (5 ft. wide by 100 ft long). Faulty and/or erratic application will result in poor insect control!

SPREADER SETTINGS

SPREADER	AMOUNT TO APPLY	SPREADER SETTINGS	
		SOD WEBWORMS & OTHER SURFACE FEEDING INSECTS	WHITE GRUBS AND ROOT FEEDING INSECTS
		50 lbs./22,000 Sq.Ft.	50 lbs./11,000 Sq.Ft.
		2- lbs./1,000 Sq.Ft.	4 ^o lbs./1,000 Sq.Ft.
Scott	50 pounds	# 4 1/2	# 5
Cyclone	50 pounds	# 4	# 5

For control of Crane Fly Larvae use Scott Spreader setting of #5 and Cyclone Spreader Setting of #4.

NOTE

1. This notice is issued to advise you that the registration of your pesticide has been renewed for a period of 18 months.

2. The registration of your pesticide will expire on 1/2/89. You must re-register your pesticide by 1/2/89. If you do not re-register your pesticide by 1/2/89, the registration of your pesticide will be terminated and you will be unable to sell or use your pesticide in the United States.

3. You must submit a copy of this notice to the State Agricultural Experiment Station or other State agency responsible for pesticide regulation in your State. You must also submit a copy of this notice to the Federal Government, Office of Pesticides Program, Registration Division, Washington, DC 20460.

4. If you are a manufacturer, you must submit a copy of this notice to the State Agricultural Experiment Station or other State agency responsible for pesticide regulation in your State. You must also submit a copy of this notice to the Federal Government, Office of Pesticides Program, Registration Division, Washington, DC 20460.

5. If you are a distributor, you must submit a copy of this notice to the State Agricultural Experiment Station or other State agency responsible for pesticide regulation in your State. You must also submit a copy of this notice to the Federal Government, Office of Pesticides Program, Registration Division, Washington, DC 20460.

6. If you are a user, you must submit a copy of this notice to the State Agricultural Experiment Station or other State agency responsible for pesticide regulation in your State. You must also submit a copy of this notice to the Federal Government, Office of Pesticides Program, Registration Division, Washington, DC 20460.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

[Handwritten Signature] 1/2/89

- d. Add use of a protective mitt or gloves when applying the product to prevent skin contact since the directions "fluff the hair as you spray so the spray will penetrate animal skin" could result in skin exposure.
- e. Add the statement "Do not use this or any other pesticide on sick, old, or debilitated pets."
- f. Please explain the basis of the term "power spray." The product is formulated and packaged in a pump spray can. The more appropriate term for this type product would be "pump spray."
- g. Either delete use on "bedding, walls, furniture, floors, or carpeting to control reinfestation" or qualify as follows:

Spray infested areas around baseboards, wall cracks, sleeping quarters of pets and localized areas of floors and floor coverings. Applications should be repeated as infestations warrant and as reinfestation occurs.

3. Within 14 months from date of this Registration Notice, you must submit storage stability data in which the formulated product is analyzed for its active ingredient at time zero and during a year of storage. The storage should be in warehouse conditions of temperature and humidity and stored in similar containers you will be using in the trade. Note: For the storage stability study you cannot reference the concentrate you are using to formulate your product.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
