The Hallmark Building  
13873 Park Center Road  
Herndon, VA 22071

Dear Ms. Connolly

Subject: Storage Stability Data and Label Amendment  
Sulfodene Scratchex Power Spray  
EPA Registration No. 4306-17  
Your Submissions Dated May 17 and September 29, 1989

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable, provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

The ingredient statement is required on the front panel of the labeling. However, if size or form of the package makes it impracticable to place the ingredient statement on the front panel, permission may be granted for the ingredient statement to appear elsewhere.

The storage stability data have been reviewed and are acceptable.

Submit five copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely,

George T. LaRocca  
Product Manager (15)  
Insecticide-Rodenticide Branch

**Sulfodene® SCRATCHEX® power spray™**

**FLEA & TICK SPRAY for dogs & cats**

Sulfodene® Scratchex® power spray™ has been scientifically formulated to both kill fleas and to keep working up to 14 days on dogs to prevent reinfestation. For use on both dogs and cats. Spray infested areas around baseboards, wall cracks, sleeping quarters and localized areas of floors and floor coverings. Applications should be repeated as infestations warrant and as reinfestation occurs.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Shake the container well before using. Hold bottle upright during use. Spray the animal from a distance of 8-12 inches. Sprayer works best with forceful pumping action. Start spraying at the tail, moving the dispenser to make sure the animal's entire body is covered, including the legs and under the body. Using a protective mitt or glove, fluff the hair as you spray so the spray will penetrate to the skin. The spray should wet the ticks thoroughly. Do not, however, oversaturate the fur or skin of the animal. Repeat as needed. Use in pet's sleeping area or on bedding, walls, furniture, floors and carpeting to control reinfestation.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:** Harmful if swallowed. Avoid breathing vapors. Do not spray in eyes, face or on genitalia. Do not use on nursing puppies or kittens under 3 months of age. Do not use this or any other pesticide on sick, old or debilitated pets. Avoid contact with the skin or clothing.

**STATEMENT OF PRACTICAL TREATMENT**

If swallowed: Call a Physician or Poison Control Center.  
 If in eyes: Flush with plenty of water. Get medical attention if irritation persists.  
 If on skin: Wash with soap and warm water. Get medical attention if irritation persists.  
 If inhaled: Remove victim to fresh air and call a physician if effects occur.

**STORAGE AND DISPOSAL**

**Storage:** Store in cool area away from heat and open flame (fireproof). Do not reuse empty container. Rinse thoroughly before discarding in trash. Wrap original container in several layers of newspapers and discard in trash.
