Sulfodene® **SCRATCHEX**™ power spray™

FLEA & TICK SPRAY for dogs & cats

Sulfodene® Scratchex power spray™ has been specifically formulated to both kill fleas and to help working up to 14 days on dogs to prevent reinfestation. For use on both dogs and cats. Spray treated areas around baseboards, wall cracks, carpet quarters and localized areas of floors and floor coverings. Applications should be repeated as reinfestation occurs and as reinfestation occurs.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its label. Shake the container well before using. Hold bottle upright during use. Spray the animal from a distance of 8-12 inches. Sprayer works best with localized puffing action. Start spraying at the tail moving the container to head then down the body. The body is covered including the legs and under the body. Use a protective mist or glove. Buff the hair as you spray so the spray will penetrate to the skin. The spray should wet the ticks thoroughly. Do not however, saturate the fur or skin of the animal. Repeat as needed. Use in bed's sleeping area or on bedding, under furniture, floors and carpeting to control reinfestation.

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**  
 Harmful if swallowed. Avoid breathing vapors. Do not spray in eyes, face or on genitals. Do not use on nursing puppies or kittens under 3 months of age. Do not use this or any other pesticide on sick, old or debilitated pets. Avoid contact with eye skin or clothing.

**STATEMENT OF PRACTICAL TREATMENT**  
 If swallowed: Call a Physician or Poison Control Center.  
 If in eyes: Flush with plenty of water. Get medical attention if irritation persists.  
 If on skin: Wash with soap and warm water. Get medical attention if irritation persists.  
 If inhaled: Remove victim to fresh air and call a physician if effects occur.

**STORAGE AND DISPOSAL**  
 Storage: Store in cool area away from heat and open flame.  
 Disposal: Do not reuse empty container. Rinse thoroughly before discarding in trash. Wrap original container in several layers of newspaper and discard in trash.
