

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For best results, clean surface to be disinfected, then mop or apply solution of 1½ oz. disinfectant per gal. of water (12 ml/l). It is best to keep surfaces wet for at least 10 minutes.

This disinfectant at use dilutions of 1½ oz. per gal. of water is effective in killing *Salmonella typhosa* on environmental surfaces, and when used, leaves a pleasant aroma of pine. Suggested for use in rest homes, motels, hotels, schools, public and commercial buildings, service stations.

Use above solution on toilet seats and exterior toilet and urinal surfaces, shower stalls, lavatories, floors and walls in restrooms. For disinfecting toilet and urinal bowls, force water thru trap, using mop or force cup, then pour 1 oz. disinfectant in bowl; mop all surfaces, allow to stand at least 10 min. Flush.

**LAUNDRY:** Spot heavily soiled and greasy spots with undiluted disinfectant. Allow to stand a few minutes, then wash using normal laundry products. Adding up to 6 oz. disinfectant helps deodorize most laundry.

A solution of 3 oz. disinfectant per gallon of water helps disinfect and deodorize hard surfaces in stables and pet quarters. Remove all litter and gross filth from surfaces prior to application of solution. Flush surfaces with water after disinfecting.

This disinfectant is a superb solvent for many soils. Added to most any floor cleaner, it helps clean and deodorize. Its use in dissolving caked-on grease and soils, or used undiluted it often can soften hardened paint brushes in just a few days.
