DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This disinfectant is made with 80% pure distilled pine oil, 10% soap and 10% water, and meets all requirements of Commercial Standard for pine oil disinfectants CS 69-38. It blooms to a snow white emulsion when poured into water, and remains stable for at least 24 hours.

For best results, clean surface to be disinfected, then mop or apply solution of 1½ oz. disinfectant per gal. of water (12ml/l). It is best to keep surfaces wet for at least 10 minutes.

This disinfectant at use dilutions of 1½ oz. per gal. of water is effective in killing *Salmonella typhosa* on environmental surfaces, and when used, leaves a pleasant aroma of pine. Suggested for use in rest homes, motels, hotels, schools, public and commercial buildings, service stations. Use above solution on toilet seats and exterior toilet and urinal surfaces, shower stalls, lavatories, floors and walls in restrooms. For disinfecting toilet and urinal bowls, force water through trap, using mop or force cup, then pour 1 oz. disinfectant in bowl; mop all surfaces, allow to stand at least 10 minutes. Flush.

LAUNDRY: Spot heavily soiled and greasy spots with undiluted disinfectant. Allow to stand a few minutes, then wash using normal laundry products. Adding up to 6 oz. disinfectant helps deodorize most laundry.

A solution of 3 oz. disinfectant per gal. of water helps disinfect and deodorize hard surfaces in stables and pet quarters. Remove all litter and gross filth from surfaces prior to application of solution. Flush surfaces with water after disinfecting.

This disinfectant is a superb solvent for many soils. Added to most any floor cleaner, it helps clean and deodorize. It finds usage in dissolving caked-on grease and soils, or used undiluted it often can soften hardened paint brushes in just a few days.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed. Keep out of eyes. Avoid contamination of feed and foodstuffs.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN: Possible mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.
STORAGE: Keep container closed when not in use. Do not store near heat or open flame. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Metal Containers - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastic Containers - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
