

DIRECTIONS FOR USE

PM 32 4313-21 11-23-90

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This is an extremely effective cleaner and disinfectant recommended for general hospital use on floors, walls, woodwork, and equipment in all departments.

For disinfection against *Staphylococcus aureus*, *Salmonella choleraesuis*, and *Mycobacterium tuberculosis* var. *bovis* (BCG), use 1 oz. to each gallon of water. Before disinfecting, remove heavy soil. Apply solution; allow to remain wet for at least five minutes. Mop up or wipe up.

For heavy duty cleaning, first remove loose soil. Use 2 ounces per gallon of water, mop or wipe on; allow to soak several minutes; remove.

For rapid cleaning, use 4 ounces per gallon of water in automatic scrubbing machines. Always rinse floors before applying polish or wax.

For daily maintenance of waxed floors, damp mop with solution of 1-½ ounces per gallon of water to remove most soil and effectively sanitize.

Recommended for use in hospitals, clinics, veterinary hospitals, rest homes, athletic departments, industrial plants — where a need exists to clean and disinfect thoroughly in one operation.

1 U.S. GALLON/3.8 LITERS

OCIDE 200®

CLEANER-DISINFECTANT

BACTERICIDAL TUBERCULOCIDAL

Not Effective Against *Pseudomonas aeruginosa* And Related Species.

Active Ingredients:

Ortho-benzyl parachlorophenol 4.9%
INERT Ingredients: 95.1%
