This disinfectant at use-dilutions of $1\frac{1}{2}$ ounces per gallon of water is effective in killing the strep-throat germ, Streptococcus pyogenes, the pus germ, Staphylococcus aureus, and the typhoid germ, S. typhosa on environmental surfaces.

It is truly a wide range bactericide that, in use-dilutions has a pleasing aroma of freshly squeezed lemons.

CAUTION: May be harmful if swall lowed. To avoid skin irritation, wash concentrate off immediately. Wash thoroughly after use. Avoid contamination of feed and foodstuffs.

USDA Reg. No. 4313-23

£ 1966

DISINFECTANT

Using A.O.A.C. method
vs Salmonella typhasa

COEF. EIGHT

CAUTION: Keep out of reach of children.
See side panel for additional caution.

For best results, clean surfactinfected, then mop or spray tion of 1½ ounces disinfectar of water — keep surface wet five minutes. For shorter cor moderately soiled surfaction ounces germicide per gallo Warm solutions are more en

Use on toilets, urinals, lavato stalls, floors, walls, refrigera and plastic surfaces.

LAUNDRY: Use 1½ ounces go gallon of hot water as next to after laundering. Allow to so five minutes. Rinse.
