

This disinfectant at use dilutions of four ounces per gallon of water is effective in killing Salmonella choleraesuis on environmental surfaces, and has a pleasing aroma of pine. Effective against gram negative enteric bacteria.

CAUTION: Harmful if swallowed. Avoid contact with skin and eyes. In case of contact, flush with plenty of water. If irritation persists, get medical attention. Wash thoroughly after use. Avoid breathing spray mist. Avoid contamination of feed and foodstuffs. Rinse empty container thoroughly with water after use and discard it.

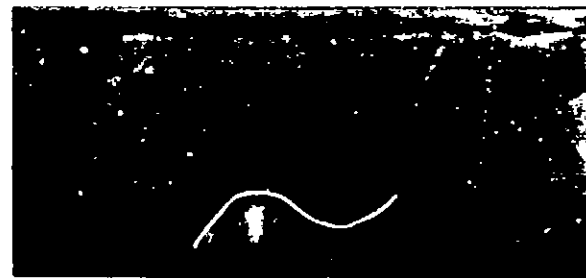

EPA Reg. No. 4313-41

1 U. S. GALLON
3.785 liters

Active Ingredients: Pine oil, soap, isopropanol, potassium ortho-benzyl-para-chlorophenate, tetrasodium ethylenediamine tetraacetate, ortho-benzyl-para-chlorophenol..... 19%
Inert Ingredients: Water 81%

CAUTION: Keep out of reach of children.
See left panel for additional precaution.

For best res then mop ounces dis keep surfa For modera germicide p utensils, r potable wa

Use on toile

For best results, clean surface to be disinfected, then mop or spray with a solution of four ounces disinfectant per gallon of water — keep surface wet for at least ten minutes. For moderately soiled surfaces, use six ounces germicide per gallon of water. If used on food utensils, rinse thoroughly after use with potable water.

Use on toilets, urinals, lavatories, shower stalls, floors, walls, refrigerators, rubber and plastic surfaces. Force water from toilet bowl thru trap, using mop or force cup; pour four ounces into bowl, mop all surfaces, allow to stand at least ten minutes. Flush.

Use in hotels, motels, schools, office buildings, industrial plants, and public transportation terminals.
