

DIRECTIONS FOR STORAGE AND HANDLING

WARNING Store in a cool, dry, well ventilated area. Moisture contamination may liberate irritating and hazardous chlorine containing gases. Oxidizing material: do not mix with other chemicals. Contact with organic matter may cause fire. Decomposes at 350-475°F with liberation of harmful gases. In case of decomposition, if possible isolate container in open air or well ventilated area. Flood with large volume of water if necessary.

Do NOT reuse empty container. Rinse empty container thoroughly with clean water before discarding.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

NET WEIGHT: 8 LBS.

Chlorinated Detergent Sanitizer

Active Ingredients

Sodium dichlorois-triazinetriene dihydrate 5.6%
(provides 3.2% available chlorine)
Sodium dodecylbenzene sulfonate 4.0%
Sodium metasilicate 5.0%
Inert Ingredients 85.4%

WARNING HARMFUL IF SWALLOWED. MAY CAUSE EYE DAMAGE. DO NOT GET IN EYES, ON THE SKIN OR ON CLOTHING. DO NOT BREATHE DUST. KEEP OUT OF THE REACH OF CHILDREN.

If swallowed - feed gruel or cooked cereal followed by olive oil or cooking oil. Call physician.

In case of personal contact: remove excess material and flush skin or eyes with fresh water for at least 15 minutes. For eyes, get medical attention.

Rinse empty container thoroughly with water and discard it. See right panel for Directions for Use.

This Detergent Sanitizer is recommended for use on dishes and glasses.

Prepare a sanitizing solution by diluting with water. This provides a solution of 100 ppm available chlorine. Clean and rinse item or utensils in solution for 2 minutes. For flat surfaces, clean to remove soil, then rinse with sanitizing solution and allow to stand 2 to 5 minutes.

The same solution may be used for sanitizing flat surfaces. Provide 2 to 5 minutes contact time. Clean and rinse well with potable water and dry.

The sanitizing solution should be used only once. If reused and tests show less than 100 ppm available chlorine, the solution should be discarded.

Active Ingredients:

- Sodium dichlorois triazinetrione dihydrate 5.6%
(provides 3.2% available chlorine)
- Sodium dodecylbenzene sulfonate 4.0%
- Sodium metasilicate 5.0%
- Inert Ingredients 85.4%

WARNING HARMFUL IF SWALLOWED. MAY CAUSE EYE DAMAGE. DO NOT GET IN EYES, ON THE SKIN OR ON CLOTHING. DO NOT BREATHE DUST. KEEP OUT OF THE REACH OF CHILDREN.

If swallowed: feed gruel or cooked cereal followed by olive oil or cooking oil. Call physician.

In case of personal contact: remove excess material and flush skin or eyes with fresh water for at least 15 minutes. For eyes, get medical attention.

Rinse empty container thoroughly with water and discard it. See right panel for Directions for Use.

This Detergent Sanitizer is recommended for use on food processing equipment and utensils including dairy and brewery equipment and utensils. It is also recommended for use on dishes and glasses.

DIRECTIONS FOR USE

Prepare a sanitizing solution by dissolving 4 1/2 oz. or 8 1/2 oz. Detergent Sanitizer per 10 gal. of water. This provides a solution containing 100 ppm or 200 ppm of available chlorine respectively. Clean and rinse items prior to sanitizing. Then place glasses, dishes, equipment or utensils in solution for 2 to 5 minutes. Remove, rinse with potable water and dry. For flat surfaces, clean to remove gross filth and heavy soil. Then spread the sanitizing solution and allow to stand 2 to 5 minutes and then rinse with potable water.

The same solution may be used in feed tank in immersion or spray type machines providing 2 to 5 minutes contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. After sanitizing step, rinse well with potable water and dry. The items then are ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional Detergent Sanitizer should be added, to maintain a minimum concentration of 100 ppm available chlorine.
