Subject: Revised Labeling--Directions for Use,
Environmental Hazards Section
Residual Roach & Ant Killer
EPA Registration Number 4313-89
Your Application Dated September 13, 1996

Dear Ms. Kirby:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, is acceptable provided that you make the labeling changes indicated below before you release the product for shipment bearing the amended labeling:

1. In the section "TO KILL FLEAS AND BROWN DOG TICKS INDOORS," revise the fourth sentence to "Also treat closets and under sofas and other furniture."
2. Revise the last sentence of the section to "Humans and pets must avoid contact with treated surfaces (rugs, etc.) until they are dry."

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

DHE

Dennis H. Edwards, Jr.
Product Manager (19)
Insecticide-Rodenticide Branch
Registration Division (7505C)

Enclosure

TO KILL FLEAS AND BROWN DOG TICKS INDOORS: Clean premises thoroughly before treatment. Spray an inconspicuous area of furniture, carpet or flooring to check for possible staining or discoloration. Special attention should be given to cracks, crevices and under carpet and rug edges. Also treat closets, upholstered furniture (with particular attention to seams), under sofas and other furniture. Do not use in nurseries or any area where infants may sleep. **DO NOT TREAT ANIMALS WITH THIS FORMULATION.**

To avoid reinfestation, pets must be treated simultaneously with an E.P.A. registered insecticide labeled for use on animals. Application should be repeated as necessary. Humans and pets must avoid contact with treated surfaces (rugs, upholstered furniture, etc.) until they are dry.

TO CONTROL: Flies, Gnats, Hornets, Mosquitoes, Small Flying Moths, Wasps and Yellow Jackets: use on only outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray dark corners and localized resting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and Mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when effectiveness diminishes.

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT IS NOT PERMITTED.

Application within food handling establishments (places other than private residences in which food is held, processed, prepared or served) including, but not limited to, areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing foods, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) and serving areas (Do not use while facility is in operation or food is exposed.): Use as a crack and crevice treatment in and around both food and non-food areas to control Ants, Cockroaches, Crickets, Silverfish, Spiders and Waterbugs. Apply in small amounts directly into cracks and crevices, in points between different elements of construction, between equipment and floor, openings leading to voids and hollow spaces in walls, equipment legs and bases. Do not use this product in conduits, motor housings, junction or switch boxes because of possible shock hazard. If there is a need to treat such areas, use only oil-base sprays. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food and food processing surfaces.

Application Within Food Serving Areas (facilities where foods are served, such as dining rooms, but excluding areas where foods may be prepared or held): Apply as a spot treatment to selective surfaces, such as baseboards, under elements of construction and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed). 850-04755

ROACH & ANT KILLER

RESIDUAL WATER BASED PRESSURIZED SPRAY

- Pyrethrin[®] provides flushing action and fast knockdown.
- Kills cockroaches, ants, spiders, ticks, fleas, and more
- Use in and around homes, apartments, garages, motels, hotels, institutions and food processing plants.
- Residual insecticide, lasts for weeks.
- Use outdoors as an aid in reducing annoyance from flies & mosquitoes entering the home.

ACTIVE INGREDIENTS:

Pyrethrins	0.052%
*Piperonyl Butoxide, Technical	0.260%
**Chlorpyrifos [0,0-diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate]	0.500%
INERT INGREDIENTS:	99.188%
	100.00%

* Equivalent to 0.208% (butylcarbityl) (6-propylpiperonyl) ether and 0.252% related compounds.
** U.S. Patent No. 3,244,586.

PYRENONE - Registered Trademark of AgrEvo Environmental Health.

EPA REG. NO. 4313-89 EPA EST. NO. 4313-TX-1

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person. **IF ON SKIN:** Remove contaminated clothing and wash affected area with soap and water. **IF IN EYES:** Flush eyes with plenty of water. Call a physician if irritation persists. **IF INHALED:** Remove victim to fresh air. Apply artificial respiration if indicated.

PRECAUTIONARY STATEMENTS Hazards To Humans & Domestic Animals

CAUTION: Harmful if swallowed. Keep out of reach of children. Avoid breathing of vapors and spray mist. Avoid skin, eyes and contact with clothing. Wash thoroughly after handling and before eating or smoking. Do not allow children or pets to contact treated surfaces until spray has dried.

Do not spray air in rooms or use on plants. Apply as a surface spray only.

Do not allow spray to contact food, feedstuffs or water supplies. Do not use in food serving areas while facility is in operation or food is exposed. Thoroughly wash dishes and food handling utensils contaminated with this product.

Remove pets and cover fish bowls before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water or where run off is likely to occur. Do not contaminate water when disposing of equipment washwaters. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F. may cause bursting.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Store in original container in a cool dry place inaccessible to children and pets. Do not transport or store below 32°F. **DISPOSAL:** Wrap container in several layers of newspaper and dispose of in trash. Do not puncture or incinerate.

To operate hold can upright, direct orifice toward the surface to be treated and press the actuator button. Do not use as a space spray.

SHAKE WELL BEFORE USING.

TO KILL ANTS, CARPET BEETLES, CENTIPEDES, COCKROACHES, CRICKETS, EARWIGS, FIREBRATS, PILLBUGS, SILVERFISH AND SPIDERS: thoroughly apply as a spot treatment to areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices, under carpets, along baseboards and door sills and frames; behind and beneath sinks, stoves, refrigerators, and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. Spray on ant trails, nests and points of entry.
