## PACE N-136 B

### Industrial Bactericide and Deodorizer For Cutting Fluids

#### CAUTION

**KEEP OUT OF THE REACH OF CHILDREN**  
Harmful, if swallowed. May cause skin or eye irritations. Avoid skin and eye contact. Avoid contamination of food.

**FIRST AID:** In case of contact, wash skin or eyes profusely with water. If eye irritation persists, get medical attention. If accidentally swallowed, give citrus juices, or milk. Call a physician.

Rinse empty container thoroughly with water before discarding or returning to drum reconditioner.

GALLONS NET

#### Controls Bacterial Slimes in Cutting Fluids

ACTIVE INGREDIENTS:  
Hexahydro-1,3,5-tris  
(2-hydroxyethyl)-s-triazine... 11.8%  
INERT INGREDIENTS: . . . . . 88.2%  
Contains Sodium Nitrite

EPA REG. NO. 4389-67  
EPA EST. NO. 4389-WA-1

#### DIRECTIONS

Use 1 gallon PACE N-136B to every 100 gallons of coolant weekly or as needed to control microbial growth and foul odors of industrial cutting fluids.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, ponds, streams, or public water. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.
