## SANTI-KLEEN CONCENTRATED PINE OIL DISINFECTANT

SANTI-KLEEN CONCENTRATED PINE OIL DISINFECTANT is a concentrated cleaner and limited disinfectant for killing odor causing bacteria in those areas where bad odors can be a problem. SANTI-KLEEN CONCENTRATED PINE OIL DISINFECTANT is recommended for household and industrial use and is effective for cleaning and deodorizing toilet areas, shower stalls, garbage receptacles, garbage disposals, and similar areas.

**Cleaning:** Mix 2 ounces with each gallon of water. Use this solution to clean floors, walls, woodwork, or other hard surfaces. Rinse is not required, except on asphalt tile. Use full strength to make quick work of extra heavy grease and grime.

**Disinfects Against Odor Causing Bacteria:** Use a solution of 2 ounces to each gallon water for deodorizing garbage and trash containers, toilet areas, shower stalls, and other hard surfaces where odors can be a problem. Kills odor causing bacteria.

Clean excess dirt first. Apply solution to surfaces and let stand for at least 10 minutes, then remove excess. Rinsing is not necessary.

**Laundry:** SANTI-KLEEN CONCENTRATED PINE OIL DISINFECTANT is particularly effective on grease stains. Apply full strength to grease spots and other stains. Rub in before loading into washer. Add 1 ounce along with your regular soap or detergent for extra cleaning and deodorizing action during the wash.

### KILLS FLEAS, TICKS, AND LICE

**FOR DOGS:** When used as directed, SANTI-KLEEN CONCENTRATED PINE OIL DISINFECTANT kills fleas and lice in minutes and ticks overnight.

**FOR FLEAS AND LICE:** Mix 1 ounce SANTI-KLEEN CONCENTRATED PINE OIL DISINFECTANT into each gallon of bath water. Thoroughly wet the animals coat with this solution, taking care to saturate hidden areas such as the underside and the area between legs. Allow the coat to remain wet for at least five minutes. The animal may then be dried, but no fresh water rinse is necessary. When treating long-haired animals, it may be helpful to bathe it first with soap and water. Rinse out the soap, and then use the SANTI-KLEEN CONCENTRATED PINE OIL DISINFECTANT solution as a final bath. Do not use on cats.

**FOR TICKS:** Use as directed for fleas and lice except use a solution of 3 ounces SANTI-KLEEN CONCENTRATED PINE OIL DISINFECTANT for each gallon of bath water.

**PREMISE SPRAY:** Use a solution of 3 ounces SANTI-KLEEN CONCENTRATED PINE OIL DISINFECTANT in 1 gallon water and spray or sprinkle solution in kennels or other places infested with fleas.

### PRECAUTIONARY STATEMENTS

**HAZARDS TO HUMANS:** Warning: May cause eye irritation. Do not get in eyes. Avoid contact with food.

**FIRST AID INSTRUCTIONS:** If eye contact occurs, immediately flush eyes with plenty of water. If irritation persists, call a physician. If swallowed, do not induce vomiting. Promptly drink a large amount of water, call a physician.

**Physical Or Chemical Hazards:** Keep away from heat, sparks, and open flame.

### STORAGE AND DISPOSAL

**STORAGE:** store only in original container and place in a locked storage area.

**DISPOSAL:** securely wrap original container in several layers of newspaper and discard in trash.
