

DIRECTIONS

SANITIZATION OF GLASSWARE, SILVERWARE, DISHES, COOKING UTENSILS, ETC.

Clean with suitable detergent, rinse thoroughly, then immerse in a sanitizing rinse made with one ounce of product in four gallons of water (200 ppm), and air-dry—do not use a towel. After sanitizing, rinse in potable water or as directed by local health department.

DISINFECTION IN HOSPITALS

For disinfection of walls, floors and other non-porous surfaces, after cleaning use one ounce of product in two gallons of water (400 ppm). For disinfection of porous and heavily contaminated surfaces use one ounce per gallon (800 ppm).

SANITIZATION OF EQUIPMENT IN FOOD PROCESSING PLANTS, INCLUDING MEAT PLANTS

Clean and rinse equipment thoroughly. Then scrub with a solution of one ounce of product to four gallons of water (200 ppm). Flush equipment with a clear water rinse before reuse. On surfaces difficult to clean and disinfect (such as meat cutting boards), increase strength of solution to one ounce to one gallon of water (800 ppm).

"Do Not Mix With Soap or Anionic Detergents."

U.S.D.A. Reg. No. 4462-30

The label is a large, inverted triangle with a black background and white text. At the top, the word "BEAVER" is written in large, bold, white capital letters. Below it is a circular logo featuring a beaver's head in profile, facing left, with the words "TRADE MARK" and "REGISTERED" around it. Underneath the logo, the text "NET CONTENTS ONE GALLON" is written in a curved path. The word "Saino" is prominently displayed in a large, stylized, white font. Below "Saino" is the text "SANITIZER AND DISINFECTANT" in smaller, white capital letters. At the bottom of the label, there is a list of ingredients and their percentages, and a caution statement. The background of the label is filled with a pattern of small white dots.
