U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

4462-39

DATE OF ISSUANCE:
MAR 29 2001

Term of Issuance:

Conditional

Name of Pesticide Product:

Sani-Bac

NOTICE OF PESTICIDE:
 Registration
 X Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

US Chemical Corporation
7910 Woodmont Avenue
Suite 1000
Bethesda, MD 20814

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any data in connection with the registration of a product under this Act is not to be understood as giving the registrant a right of exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Revise the "Precautionary Statements" to read:

Corrosive: Causes irreversible eye damage or skin burns. Harmful if swallowed, or absorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing dust. Wear goggles or face shield. Wear protective clothing and rubber gloves. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

Signature of Approving Official:

Robert S. Brennis, Acting PM 32

Date:

MAR 29 2001

Page 2 of 2
EPA Reg. No. 4462-39

2. Under the "Environmental Hazards" Statement delete the word "other" in the first sentence.
3. You must submit a updated Confidential Statement of Formula (CSF).

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Precautionary Statements

Hazards to Humans and Domestic Animals

DANGER

Corrosive. Causes skin burns and irreversible eye damage. Harmful if inhaled, swallowed, or absorbed through skin. Do not get in eyes or on clothing. Avoid breathing dust. Wear protective clothing, eyewear (goggles, face shield or safety glasses), and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

Environmental Hazards

This product is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your state Water Board or Regional Office of the EPA.

Physical or Chemical Hazards

STRONG OXIDIZING AGENT: DO NOT MIX WITH ACIDS. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause violent reaction leading to a fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion.

Storage and Disposal

Storage: Keep product in a tightly closed container when not in use. Store in a cool, dry, and well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amount of water to dissolve all material before discarding.

Disposal: Discard container in manner consistent with local, state and federal regulations. Do not use this container for any other product than what is shown on this label.

CONCENTRATE SANI-BAC POWDERED BACTERICIDE

Active Ingredient

Sodium dichloro-s-triazinetrione	20%
Other Ingredients	80%
Total:	100%

For Sanitizing Equipment, Utensils & Glassware

Keep Out of Reach of Children

DANGER

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If Swallowed:

- Call Poison Control Center or doctor immediately for treatment advice.
- Have Person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor
- Do not give anything by mouth to an unconscious person

If Inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a Poison Control Center or doctor for further treatment advice

If in Eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present after 5 minutes, then continue rinsing eye.
- Call a Poison Control Center or doctor for further treatment advice.

If on Skin:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes
- Call a Poison Control Center or doctor for further treatment advice

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

For Medical Emergency ONLY, Call: 1 800 XXX-XXXX.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ AND UNDERSTAND LABEL AND MATERIAL SAFETY DATA SHEET BEFORE USE.

DAIRY FARMS AND PLANTS

1. Rinse utensils and equipment with a clear water until free of milk residue.
2. Wash utensils and equipment with a recommended detergent. Rinse with clean water.
3. Prepare sanitizing solution (100 ppm available chlorine) by mixing ½ ounce of product to 5 gallons cold or lukewarm (NOT hot) water.
4. Immerse utensils in solution or thoroughly saturate equipment surfaces for at least thirty seconds. **DO NOT SOAK OVERNIGHT.** Let air dry.

POULTRY OPERATIONS

1. Remove all poultry and feeds from premises, trucks, coops, and crates.
2. Remove all litter and droppings from floors, walls, and surfaces of facilities occupied or traversed by poultry.
3. Empty all troughs, racks, and other feeding and watering appliances.
4. Prepare sanitizing solution (600 ppm available chlorine) by mixing 3 ounces of product to 5 gallons cold or lukewarm (NOT hot) water.
5. Saturate all surfaces for at least 30 seconds.
6. Ventilate buildings, coops and other closed spaces. Do not house poultry or employ equipment until equipment and surfaces are dry.
7. All treated feed racks, mangers, troughs, automatic feeders, fountains, and waterers must be thoroughly rinsed with potable water prior to reuse.

INSTITUTIONS - FOOD INDUSTRY

1. Wash all articles to be sanitized with suitable detergent.
2. Prepare sanitizing solution (100 ppm available chlorine) by mixing ½ ounce of product to 5 gallons cold or lukewarm (NOT hot) water. **ACCEPTED**
2. Immerse articles in solution for at least 30 seconds. Let air dry.
