

## PESTICIDE & DEODORANT FOR DOGS & CATS

NET WEIGHT 14 OUNCES

**WARNING: FLAMMABLE**  
Keep Out of Reach of Children.  
Contents Under Pressure.

See other precautions on back panel.

When used according to directions this spray will kill ticks, lice, fleas and gnats on contact and repel flies, mosquitoes and gnats. Also destroys doggy odors due to skin bacteria.

### DIRECTIONS

Apply spray to animals from a distance of 10 to 12 inches. Start spraying at the tail, moving the spray rapidly and making sure the entire animal's body is covered including the legs and under portions of the body. As you spray fluff the coat so the spray will penetrate to the skin. Spray only until hair is slightly damp. Do not spray eyes, face or scrotum. For best results, spray ticks directly. Spray animal's bed and living quarters regularly. Repeat treatment weekly, but at no shorter intervals.

**CAUTION:** Do not spray around feed or foodstuff. Avoid inhalation of the vapors. It is preferable to use in a well ventilated area. Store container in a cool place. Do not use on birds or around fish bowls. Do not spray in eyes, face or around scrotum. Do not direct spray to one area, but move continuously while spraying. If by accident you spray your hands or person, wash the area with warm soapy water. Keep out of the reach of children.

### ACTIVE INGREDIENTS

Pyrethrins	0.08%
Technical piperonyl butoxide*	0.80%
Malathion (O, O-Dimethyl dithiophosphate of diethyl mercaptosuccinate)	0.50%
2,2'-Thiobis (4-chloro-6-methylphenol)	0.10%
Petroleum distillates	48.52%

<b>INERT INGREDIENTS</b>	50.00%
Total	100.00%

\*Equivalent to 0.64% (butylcarbityl) (6-propyl-piperonyl) ether and 0.16% related compounds.
