DIRECTIONS FOR USE

Remove protective cap. Hold can upright. Press valve down to spray. Push button to spray.

FOR HOUSEFLIES, MOSQUITOES AND GNATS: Close doors and windows. Point nozzle upward and spray into air. Spray all parts of room, especially where as many dark corners which attract these insects. Do not rinse with paint, this will leave the treated area. Keep closed for at least 15 minutes. Ventilate thoroughly before occupying.

WASPS: Application should be made when insects are at rest. Spray liberally into hanging nest openings, entrances and any places insects are found. Repeat as necessary.

FOR CRAWLING INSECTS: Roaches, ants, earwigs, grain mites, sowbugs, spiders and centipedes: Spray the baseboards and other places such as cracks, crevices, behind or under sinks and cabinets, closets, kitchen cupboards, basement boards and storage areas. Repeat weekly or as often as necessary.

ANTS: Spray trails of ants and other insects found on visible surfaces. Repeat as necessary.

WARNING: Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 130°F. May cause burning. Never throw container into fire or incinerator. Do not spray on food or food surfaces. Avoid contamination of foods or foodstuffs. Use as a space spray in food processing plants only when the facility is not in operation. Food must be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. Cover or remove aquariums. Remove all pets from area to be treated.
