min. 70% (±)trans.

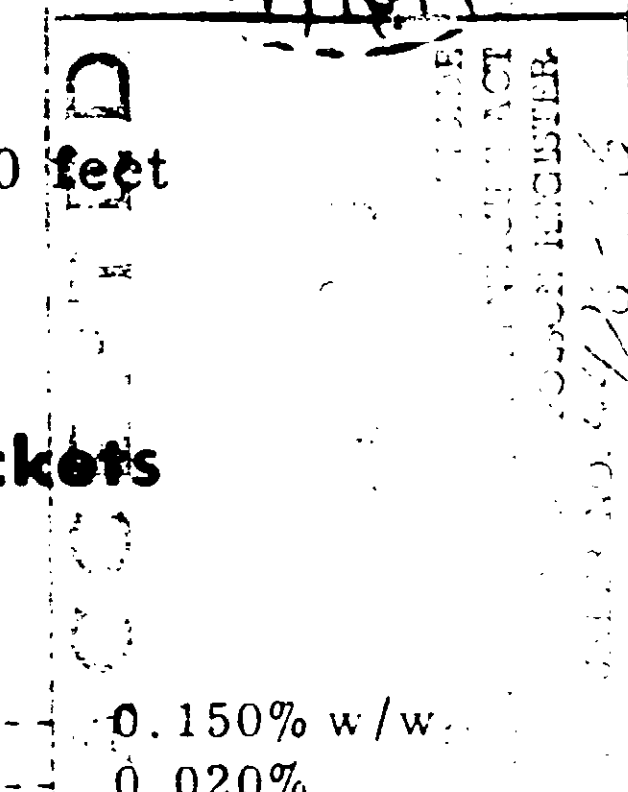

+U. S. Patent No. 3,465,007

CAUTION: Keep Out of Reach of Children.
See back panel for additional precautions.

NET WT. 1 POUND (16 OZS.)

Manufactured By

MORTON PHARMACEUTICALS, INC.
Memphis, Tenn. 381...

DIRECTIONS FOR USE

FOR OUTDOOR USE: Application should be made in late evening when hornets, wasps and yellow jackets are at rest. Hold can upright. Remove cap. Point valve opening away from face. With wind at back, aim at nests in trees, bushes, under eaves, chimneys, cracks or crevices, etc.

FOR INDOOR USE in attics, warehouses and other storage areas where feed and foodstuffs are not exposed: Point valve opening away from face. Aim directly at nests of hornets, wasps and yellow jackets under rafters, etc.

Thoroughly saturate nest with spray, contacting as many insects as possible. To prevent insects from falling on skin and clothes, do not stand directly under nest. Best results can be obtained if nest is sprayed in late evening when most insects are at rest. If reinfestation occurs, repeat treatment.

CAUTION: Harmful if swallowed. Avoid breathing spray mist. Do not spray in areas where feed and foodstuffs are exposed or handled.

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
