HOUSEHOLD INSECT KILLER - This is a dual purpose formula for use as a household insecticide against flying and crawling insects. It is effective against house flies, mosquitoes, gnats, and other flying insects. It remains effective for 3 to 4 weeks.

DIRECTIONS FOR USE

For use as a household insecticide: Remove cap to the top. Air spray over the area to be treated. Do not inhale spray.

HOUSEHOLD MOSQUITOES AND GNATS

Use as follows: Open all doors and windows. Point nozzle upward, direct the spray into the air in the room, especially windows and other lighted areas, to attract these insects. Fill the room with mist. The spray will be effective. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

TO REDUCE ANNOYANCE FROM FLYING INSECTS

Use as follows: Remove gnats, mosquitoes, gnats (midges), house flies, biting flies and other flying insects by spraying their resting areas. Follow directions for use. If the distance is 18 to 24 inches from shrubs, bushes, and trees, spray these areas with a slow sweeping motion at the rate of 1 to 3 seconds per cubic foot of space while the insect is in the spray. To reduce annoyance from these insects, spray the areas where they rest in a similar manner. Spray the area where the insect is. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

ROACHES, EARWIGS, GRAIN MITES, SOWBUGS, LIDERS AND CENTIPEDES

Use as follows: Spray thoroughly in hiding places such as cracks, crevices, under baseboards, around pipes and sinks, under refrigerator baseboards, and storage areas. Spray directly on insects if possible. Repeat as necessary.

ROACHES, EARWIGS, GRAIN MITES, SOWBUGS, LIDERS AND CENTIPEDES

Use as follows: Spray baseboards, cracks and crevices, around door frames, and in other hiding places such as closets, in back of refrigerator, under sinks, and in the kitchen and bathroom. Spray in hiding places, cracks and crevices, at the rate of 3 to 4 seconds per cubic foot of space. Spray at the rate of 3 to 4 seconds per cubic foot of space. Repeat as necessary.

Use as follows: Spray in the late evening when insects are most active. Spray in hiding places, contact insects if possible. Repeat as necessary.

Use as follows: Spray around window sills, window frames and door frames. Repeat as necessary.

ORNAMENTAL PLANT PESTS - Use on aphids, eye-seed thrips, a felt moth, scale, spider mites, whiteflies, Japanese beetles, and other insects. Spray on the undersides of leaves. Direct spray on insects. Spray at the rate of 3 to 4 seconds per cubic foot of space. Repeat as necessary.

Use as follows: Spray on the undersides of leaves. Repeat as necessary.

Use as follows: Spray on the undersides of leaves. Repeat as necessary.

Use as follows: Spray on the undersides of leaves. Repeat as necessary.
