

Manufactured specifically for institutional use where a concentrated product is required.

This is an excellent deodorizer-sanitizer and refreshener that chemically reduces viruses. Disperses unpleasant odors and smoke.

Wonderful for sanitizing and deodorizing meeting rooms, churches, sick rooms, bath rooms, restaurants, etc. Excellent for use in closets, chests and clothes hampers.

DIRECTIONS

As an air sanitizer, hold can upright and point valve away from you. Spray towards center of room as well as in corners filling the room with a fine mist.

Caution: Store can upright in a cool place not over 120°F. Do not puncture or throw used can in fire or incinerator. Do not use near fire or flame.
