

EPIC Algaecide is intended to control typical algae found in swimming pools, such as *Chlorella pyrenoidosa*, *Phormidium retzii*, and *Phormidium inundatum*. The material should be added to the water along the edges of the pool.

DIRECTIONS

1. ADD 2½ OZ. OF EPIC ALGAECIDE TO EACH 1000 GALLONS OF UNTREATED WATER.
2. AFTER FIRST APPLICATION ADD EPIC ALGAECIDE EVERY 4-5 DAYS AS SHOWN ON INSTRUCTION CHART BELOW.

DOSAGE TO BE USED EVERY 4-5 DAYS

8x20	10x30	12x36	15x48	18x48	24x48
650 gals	14.5 gals	2550 gals	5300 gals	7600 gals	13500 gals
0.5 oz	1 oz	1.5 oz	3.5 oz	5 oz	9 oz

THESE DOSAGES ARE APPROX.

FOR LARGER SWIMMING POOLS

INITIAL APPLICATION

When there are no visible signs of algae, add one gallon to 50,000 gallons of water. When algae is visible add one gallon per 50,000 gallons every 24 hours until algae disappear.

MAINTENANCE DOSAGE

Use one quart per 50,000 gallons of water every 4-5 days.

Rinse empty container thoroughly with water and discard.

EPIC

LIQUID ALGAECIDE

FOR USE IN PATENT PENDING
SWIMMING and SPLASHER POOLS

ACTIVE INGREDIENTS

Tris (2-hydroxyethyl) benzyl ammonium chloride 4.2%
 Alkyl (70% C12, 24% C14, 5% C16, 1% C10) dimethyl benzyl ammonium chloride 5.8%

INERT INGREDIENTS

Water 90.0%

EPA REG. NO. 4482-11; EPA EST. NO. 4482-NY-1

DANGER: KEEP OUT OF REACH OF CHILDREN:

Corrosive, causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear protective clothing when handling. Harmful or fatal if swallowed. Avoid contamination of food. Wash thoroughly with soap and water after use.

See side panel for further warnings:

The presence of algae in outdoor swimming pools is objectionable because of the color, cloudiness, odor, and increased chlorine demand of water. The use of Epic Algaecide will help to maintain the water in a clean condition.

Epic Algaecide is compatible with the usual water treatment chemicals. By controlling algae growth with Epic Algaecide, the chlorine demand of the pool may be significantly reduced.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before re-use.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probably mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent, convulsions may be controlled by the cautious intravenous injection of a short-acting barbiturate drug.

This product is toxic to fish. Do not discharge swimming pool water into lakes, ponds or streams.
