

GENERAL CLEANING AND DISINFECTING:

Dilute 1 part of disinfectant with 80 parts (1 oz. to approx. 2½ quarts) of luke warm water. Excellent for removing odors, dirt and grease from floors, woodwork, sinks, basements.

CLEANING TOILETS AND URINALS:

Expel the residual bowl water over the trap with a bowl mop or plunger prior to the application of the use solution. Use a solution of ½ pint to 5 gallons of water. Wash thoroughly and then pour solution down drain to aid deodorizing.

FOR HOSPITAL USE:

To disinfect pseudomonas aeruginosa use 10 oz. or approximately 2/3 pint of disinfectant per one gallon of water.

FOR WASHABLE PAINTED SURFACES:

Cabinets, screens, doors, lawn and porch furniture, porcelain surfaces, sinks, stoves, refrigerators, bath tubs, washbasins, garbage and trash cans. remove the gross dirt and soil before applying disinfectant, then use 3 to 4 tablespoons disinfectant for each quart of hot water and wash surface thoroughly, then wipe surface, rinse with potable water.

When used to disinfect or deodorize surfaces that come into contact with food, these surfaces must be thoroughly scrubbed with detergent and rinsed with potable water prior to reuse.

FOR USE IN HOSPITALS, HOTELS, NURSING HOMES, INSTITUTIONAL AND INDUSTRIAL BUILDINGS.

DEODORIZATION:

To deodorize surfaces during cleaning: mop or brush surfaces with a solution containing 6 ounces of disinfectant per gallon of water. This is an active antibacterial cleaner designed for use in household, industrial and institutional cleaning. When used as directed it will deodorize hard surfaces, such as floors, walls, counter tops and furniture. It may be relied upon to deodorize bathroom areas, garage pits, food storage areas, kennel areas and other areas where objectionable odors may develop. It may be used as a general purpose antibacterial detergent in schools, restaurants, hospitals, nursing homes, public rooms, food processing plants and in other places where efficient cleaning and deodorizing action is desired. See left panel for use directions.

DANGER:

KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or clothing. Protect eyes and skin when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
