Wildman's

MOTH CRYSTALS

Active ingredient:

Paradichlorobenzene 100%

CAUTION: Keep out of reach of children.

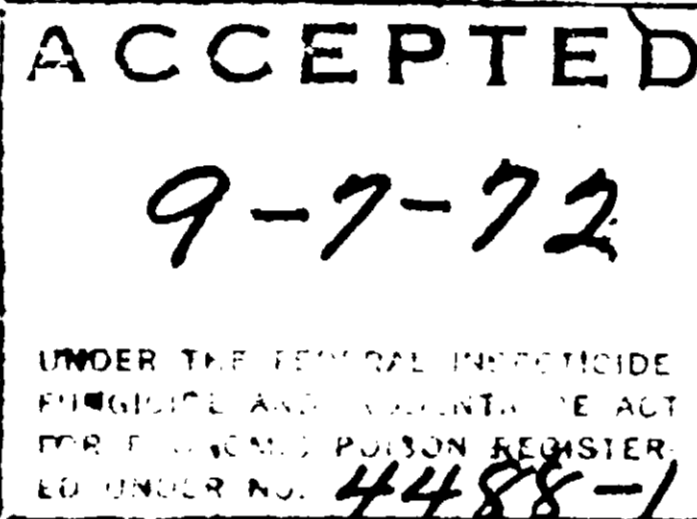

Avoid Inhalation

The W. H. WILDMAN Co.

Div. Nexus Corp.

DAYTON, OHIO 45402

24 Oz. NET WT. (1½ lbs.)

A fine vaporizing crystal which kills moths and their eggs.

Protects against mildew on cotton, leather, woolens, paper and other materials when kept in a tightly closed container.

A pleasant deodorant for lavatories, cellar, garage or any place there may be objectionable odors.

Directions: Have all articles close and brushed. Hang open containers of crystals near the ceiling or spread on trays above storage racks. For packing boxes or trunks, spread over the bottom and in folds of stored objects. Seal container edges.

One pound of Moth Crystals will protect approximately 100 cu. ft. of storage space for 3 months if the container remains tightly closed throughout the period. Replenish this supply of Moth Crystals if containers are opened occasionally.

USDA Registration No. 4488-1
