The state of the s

Cross-infection is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. **COUNTDOWN** is formulated for this problem area. It both cleans and disinfects effectively when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

WARNING

Keep out of reach of children. May cause severe eye irritation or eye damage. Causes skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, give milk, raw egg white, gelatin solution; or if these are not available, drink water. Call a physician immediately.

USE DIRECTIONS

Add two ounces per gallon of water.

Apply COUNTDOWN to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop. For heavily soiled areas, a pre-liminary cleaning may be required.

At two ounces per gallon use-level, COUNTDOWN is effective against Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella choleraesuis, and Trichophyton interdigitale. Germicidal performance against the first three organisms has been confirmed by the AOAC Use-Dilution Test. At 2 ounces per gallon the broad spectrum effectiveness of COUNTDOWN is shown by its germicidal action against the following additional organisms:

Escherichia coli
Klebsiella pneumoniae
Salmonella schottmuelleri
Streptococcus faecalis
Shigella dysenteriae
Brevibacterium ammoniagenes
Enterobacter aerogenes
Proteus mirabilis
Streptococcus Pyogenes

Fungicidal performance against T. interdigitale was determined by the AOAC Fungicidal Test.

Rinse empty container with water before discarding it.
