

BENZ-O-CHLOR 4-E

FOR CONTROL OF MITES ON CITRUS

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS KEEP OUT OF REACH OF CHILDREN WARNING

Poisonous by skin contact or inhalation. Fatal if swallowed. If swallowed, drink two glasses of water and induce vomiting by touching back of throat with finger. Do not give anything by mouth to an unconscious person. Get medical attention. Rapidly absorbed through skin. In case of contact with skin, wash as soon as possible with plenty of soap and water. If eyes flush with water for 15 minutes.

General Precautions

Take special care to avoid getting benz-o-chlor 4-E in eyes or skin. If anything. Do not breathe spray mist. Avoid breathing vapors. If benz-o-chlor 4-E gets on clothing, remove contaminated clothing and wash affected parts of body with soap and water. If extent of contamination is unknown, bathe entire body thoroughly. Change to clean clothing. Wash hands with soap and water each time before eating, drinking, or smoking. At the end of each work day, bathe entire body with soap and plenty of water. Wear clean clothes each day, and shower before reusing.

Required Clothing and Equipment for Application

One piece overalls which have no pockets and no pants pockets. If they are, no fabric as specified in the label. No pockets and no pants pockets. No pockets.

Heavy-duty fabric work gloves.

Any article which has been worn while applying benz-o-chlor 4-E must be cleaned before reusing. Clothing which has been soiled with benz-o-chlor 4-E must be cleaned before reusing. Facepiece respirator of the type approved for pesticide spray applications by the National Institute for Occupational Safety and Health. Instead of clothing and equipment specified above, the applicator can use an enclosed cab which provides a filtered air supply as described by Taschenberg and Bourke, 1970, and which allows no more than 0.41 mg./day total exposure to benz-o-chlor 4-E.

Handling Precautions

Heavy-duty rubber or neoprene gloves and apron must be worn during loading, unloading and equipment clean-up.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, crabs and shrimp. Use with care when applying in areas adjacent to any body of water. Keep out of lakes, streams, ponds, tidal marshes and estuaries.

KEEP OUT OF REACH OF CHILDREN! WARNING

See side panels for additional specific precautionary statements and directions for use.

GENERAL INFORMATION

Tower benz-O-Chlor 4-E miteicide is an emulsifiable solution intended for application after dilution with water. The rates given (see right panel) — Directions for use are for brute sprays. Rate per 100 gals. of water unless otherwise stated. In general, application should be made when mites first appear. For severe infestations, or if conditions are favorable for mite buildup, repeated applications will be necessary. Do not use with highly alkaline materials such as lime.

NOTICE

Read the label carefully — Use only as directed.

Use of this material in other than in accordance with directions on this label may produce plant injury, excessive residues, or other undesirable results. Tower Chemical Company makes no express or implied warranties other than specified on this label.
