Monarch[®]

400 Sanitizer

SK 0380

Directions For Use

It is a violation of Federal law to use the product in a manner inconsistent with its labeling.

DILUTION DIRECTIONS: Dilute Monarch 400 Sanitizer at 1 ounce to 5 gallons of water (provides at least 200 ppm dodecylbenzene sulfonic acid). When used at levels less than 400 ppm dodecylbenzene sulfonic acid Monarch 400 Sanitizer does not require a potable water rinse in accordance with 21CFR 178.1010.

Monarch 400 sanitizer has a hard water tolerance of 500 ppm of hardness.

MONARCH 400 SANITIZER FOR DAIRY INDUSTRY AND FOOD PROCESSING PLANTS: For sanitizing stainless steel, glass, and other food contact surfaces used in pipelines, fittings, pumps, vats, silos, tanks, closed systems and food processing equipment. Remove gross food particles and soil by flushing, scraping or brushing. Preclean all surfaces. Rinse with potable water prior to application of sanitizing solution. Apply sanitizer by flooding, spraying or immersing equipment. For closed system sanitizing, fill pipeline with sanitizing solution. Thoroughly wet all surfaces. Contact time of at least 1 minute required followed by adequate draining. Fresh solution should be prepared daily or when use solution becomes visibly dirty. For mechanized applications, do not recirculate solution.
