GENERAL

TRICARBAMIX Zn is a special wettable powder formulation containing Ziram, Ferbam and Manganese dimethyldithiocarbamate that is designed to correct Zinc deficiency and also give fruit and foliage protection against certain fungi such as apple scab, and bull's eye rot.

DIRECTIONS FOR USE

APPLES —Mix 3 pounds TRICARBAMIX Zn per 100 gallons of water applying as a bulk spray early in the growing season (pink or early calyx stage). Follow by a second application in 10 to 14 days. Three applications may be necessary if deficiency symptoms are severe. If blotching occurs on the fruit, the use of a spreader-sticker such as X-77 is suggested to give uniform coverage. Do not use within 7 days of harvest or apples.

TRICARBAMIX Zn is compatible with most commonly used insecticides such as DDT, Parathion, Malathion, Perthane, Orthion. Do not mix with lime sulfur and oil as phytotoxicity may occur.

NOTICE
