

MANE

ACTIVE INGREDIENT Maneb (Manganese ethylenedisithiocarbamate) (Manganese equivalent as metallic 16.5%)	INERT INGREDIENTS
TOTAL	

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Induce vomiting immediately by drinking glasses of water and taking finger to back of throat to vomit. Do not give anything by mouth if unconscious or person is unable to swallow.

IF IN EYES: Flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation persists.

IF ON SKIN: Immediately flush skin with plenty of water. Get medical attention if irritation persists.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS (AND DOMESTIC ANIMALS)

CAUTION

IF SWALLOWED, ABSORBED THROUGH SKIN, OR INHALED: CAUSES MODERATE IRRITATION. Avoid contact with skin, eyes, or clothing. Avoid breathing spray, mist or dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

ENVIRONMENTAL HAZARDS

Do not apply to fish or fish. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes.

GENERAL INFORMATION

Maneb is a fungicide used as a spray or dust for the control of many fungus plant diseases. It is used best with a backpack sprayer or a tractor-mounted spray or dusting equipment.

DIRECTIONS FOR USE

Read and follow label directions for use of this product in a manner inconsistent with label directions.

Do not wear or use this product until spray has dried or dust has settled. Because certain crops may require reentry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

When oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. When oral warnings are given, such warnings shall be given in a language which is understood by the workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by the workers. Written warnings must include the following information:

CAUTION: Area treated with MANEB 80 Fungicide on (date of application).

STATEMENT OF PRACTICAL TREATMENT

IF ON SKIN: immediately flush skin with plenty of water. Get medical attention if irritation persists.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS (AND DOMESTIC ANIMALS)
CAUTION

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes.

GENERAL INFORMATION

MANE-B 80 may be used as a spray or dust for the control of many fungus plant diseases. It mixes readily with water, is stable, and adheres to sprayed surfaces with a minimum of runoff.

DIRECTIONS FOR USE

Do not use this product in a manner inconsistent with its labeling.

Do not enter treated areas without protective clothing until spray has dried or dust has settled. Because certain crops may require reentry to treated areas at intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with the product. When oral warnings are given, such warnings shall be given in a language which is understood by the workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by the workers. Written warnings must include the following information:

(A) ACTION: Area treated with MANE-B 80 Fungicide (or date of application)

MANEBA-R is recommended for control of the diseases on the crops listed below

• 100 •

1. For N, N, A, 1A, 1A*, N, use 1 to 2 pounds MANFR 80 per 100 gallons of water unless otherwise indicated. Apply 100 to 125 gallons of water per acre for most crops. For corn, sorghum, and soybean crops, use 150 to 200 gallons per acre for heavy tomato and potato vines.

applied to the bottom of the well, and amount of product when the agitator (adder) on the left or recirculating pipe from pump are lowered into the water when the agitator is brought up. Three to four level measurements in MANNER B per one gallon of water is required. (See Figure 10, page 15)

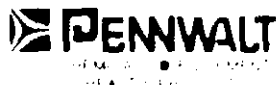

MANER, R. H. 1983. The MANER River Basin, a study of water per acre for food for man. M.S. thesis, Arizona State University, Tempe, Arizona. 104 pp.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

LEAFY BLIGHT (Cercospora) and late blight (Septoria)—Apply when plants are established in the field; repeat as frequently as required under average conditions, every 3 to 5 days under severe disease conditions. Do not apply within 14 days of harvest. Remove infected leaves by stripping, trimming, and washing.

Anthracnose leaf blight—Apply when plants are 6 weeks old (or when disease threatens), repeat every 7 to 10 days.

Downy mildew, anthracnose leaf blight—Begin application when first signs of disease appear and apply every 7 to 10 days while the disease is present under severe conditions, shorten intervals to 4 to 5 days. Do not use more than 4 pounds MANE 80 per acre. Add a fungicide to the spray tank. Do not feed treated forage to livestock.

Downy mildew, anthracnose leaf blight, and late blight—Apply as soon as plants begin to run or when disease threatens; repeat at 7 to 10 day intervals under severe conditions, shorten intervals to 3 to 5 days. Do not apply within 5 days of harvest.

Downy mildew, anthracnose leaf blight, and late blight—Apply as soon as plants begin to run or when disease threatens; repeat at 7 to 10 day intervals under severe conditions, shorten intervals to 3 to 5 days. Do not apply within 5 days of harvest.

Downy mildew, anthracnose leaf blight, and late blight—Apply as soon as plants begin to run or when disease threatens; repeat at 7 to 10 day intervals under severe conditions, shorten intervals to 3 to 5 days. Do not apply within 5 days of harvest. Remove residues from head lettuce by stripping and trimming, and from leaf lettuce by washing, or other effective means.

Downy mildew, anthracnose leaf blight, and late blight—Apply as soon as plants begin to run or when disease threatens; repeat at 7 to 10 day intervals under severe conditions, shorten intervals to 3 to 5 days. Do not apply within 5 days of harvest. Remove residues from head lettuce by stripping and trimming, and from leaf lettuce by washing, or other effective means.

Do not apply within 5 days of harvest. Remove residues from head lettuce by stripping and trimming, and from leaf lettuce by washing, or other effective means.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage Instructions: Store in the original container in a dry area. If allowed to become wet the product will become a fire hazard. Keep away from sources of ignition (e.g., sparks and open flames). Do not store in manner where cross contamination with other pesticides or fertilizers could occur. If spilled during storage or handling sweep up spillage and dispose of it in accordance with the Pesticide Disposal Instructions listed below.

Pesticide Disposal Instructions: Wastes resulting from the use of this product may be disposed of by incineration or by other means.

Container Disposal Instructions: Completely empty bag into application equipment. Then dispose of container by incineration or by other means, or if allowed by State and local authorities, by burning.

WARRANTY AND DISCLAIMER

This product is warranted to conform to the chemical description on the label and to conform to the directions for use. Subject to the risks referred to therein, PENNALT MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER GUARANTEE OF PERFORMANCE. IN NO CASE SHALL PENNALT OR SELLER BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. PENNALT'S LIABILITY IS LIMITED TO LOSS OF PROFITS, BUSINESS REPUTATION, OR CUSTOMER RELATIONSHIPS. THE USER ACCEPTS THE RISK OF INJURY OR DAMAGE TO PERSONS OR PROPERTY.

The user of this product and their agent accept it subject to the foregoing conditions of sale. This agreement is hereby accepted by agreement, written or signed by a duly authorized representative of the user.
