

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER!

DO NOT GET IN EYES, ON SKIN, OR CLOTHING.
AVOID BREATHING MIST.
KEEP CONTAINER CLOSED.
WASH THOROUGHLY AFTER HANDLING.
WEAR GOGGLES OR FACE SHIELD AND RUBBER
GLOVES WHEN HANDLING.
CAUSES EYE DAMAGE AND SKIN IRRITATION.

ENVIRONMENTAL HAZARD

The product is toxic to fish. Do not apply directly to lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

• Notice to User: It is a violation of Federal Law to Use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

1. PROHIBITIONS

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

2. Pesticide Disposal

Pesticide, spray mixture, or rinse water that cannot be used or chemically processed should be disposed of in a landfill approved for Pesticides or buried in a safe place away from water supplies.

3. Container Disposal

Reseal container and offer for reconditioning, or triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill, or bury in a safe place.

4. General

Consult Federal, State or Local Disposal Authorities for approved alternative procedures.

For Use on Cantaloupes:

To make 90 gallons of diluted "ready-to-use" cantaloupe wax, use the following quantities:

- 66 gallons water
- 9 gallons Deccosol 122
- 15 gallons of Cantaloupe Lustr 207

Stir while the ingredients are being added. The concentration of sodium orthophenylphenate (anhydrous) being applied to cantaloupes will be 1.45%. Diluted melon wax is applied to cantaloupes through standard sprays over a brush wax applicator.

Directions for use continued on right panel

DECCO TILTBELT

 **PENWALT**

AGRICULTURAL TECHNOLOGY

DECCOSOL® 122
CONCENTRATE

For control of organisms causing decay of citrus, sw
apples and pears after harvest, and for the suppression
molds and surface molds on cantaloupes.

Active ingredient:

Sodium orthophenylphenate (anhydrous).....

Inert ingredients:

KEEP OUT OF REACH OF CHILDREN

DANGER! CAUSES BURNS
HARMFUL IF SWALLOWED

First Aid: In case of contact, immediately flush eyes with water for at least 15 minutes while removing contaminated clothing and shoes. Call a physician. Wash clothing before re-use. If swallowed, do not induce vomiting. Give small sips of water. Give at least one ounce of vinegar in an equal amount of water. Never give anything by mouth to an unconscious person. Call a physician.

INSTRUCTIONS FOR USE

Caution to User: It is a violation of Federal Law to Use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

CONTAMINATION PREVENTION
Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

Chemical Disposal
Empty, spray mixture, or rinse water that cannot be reused or chemically processed should be disposed of in accordance with all approved for Pesticides or buried in a safe place away from water supplies.

Container Disposal
Empty container and offer for reconditioning, or triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill, or bury in a safe place.

For Federal, State or Local Disposal Authorities for approved alternative procedures.

Application on Cantaloupes:
Apply 10 gallons of diluted "ready-to-use" cantaloupe wax, containing the following quantities:

10 gallons Deccosol 122
10 gallons of Cantaloupe Lustr 207

The active ingredients are being added. The concentration of sodium orthophenylphenate (anhydrous) being applied to cantaloupes will be 1.45%. Diluted melon wax is applied to cantaloupes through standard sprays over a brush wax.

DIRECTIONS FOR USE (Continued)

For Use on Citrus:

Dilute 1 gallon of Deccosol 122 Concentrate with 46 to 80 gallons of water for use in citrus washing tanks at a concentration ranging from 0.2 to 0.35% sodium orthophenylphenate (anhydrous). Caustic soda should be added, when necessary, to maintain the pH in the washing tank above 11.6. The citrus should not be in the washing tank for more than 5 minutes and must be rinsed thoroughly with fresh water upon leaving tank. Or, for use in the Decco process by or under the supervision of Pennwalt Corporation personnel.

Sanitation of Produce Picking Containers:

Dilute 1 gallon of Deccosol 122 with 69 gallons of water to give a treating concentration of 0.21% (2100 ppm) sodium orthophenylphenate (anhydrous). This can be applied by brushing, dipping or spraying. Do not rinse. Do not put produce in sanitized picking container until the container is completely dry.

In Citrus Bin Drenchers (CALIFORNIA ONLY)

When filling the drencher, add 1 gallon of Deccosol 122 to 415 gallons of water to give a treating concentration of 0.035% of (350 ppm) sodium orthophenylphenate (anhydrous). Do not use over 500 ppm (1 gallon of Deccosol 122 to 290 gallons of water) to avoid injury to citrus. During operation of bin drencher add 1 gallon of Deccosol 122 to 415 gallons of make-up water to maintain treating concentration of 350 ppm. While bins are being drenched, increase the feed rate of the Deccosol 122 pump slightly to maintain the 350 ppm treatment level.

For use on apples and pears:

Dilute 1 gallon of Deccosol 122 Concentrate with 44 to 56 gallons of water. The apples and pears are exposed to this solution for 1½ to 4 minutes after which they are thoroughly rinsed with fresh water. The orthophenylphenol residue resulting from the above treatment will be below the maximum tolerance of 25 ppm allowed by law. Or, for use in the Decco process by or under the supervision of Pennwalt Corporation personnel.

DIRECTIONS FOR USE (Continued)

For use on Sweet Potatoes: dilute 1 gallon of Deccosol 122 Concentrate with 23 to 45 gallons of water resulting in 0.35 to 0.7% sodium orthophenylphenate (anhydrous). Apply by sprays or a tank treatment. Or, for use in the Decco process by or under the supervision of Pennwalt Corporation personnel.

Once opened use the entire contents of this container within 120 days.

WARRANTY AND DISCLAIMER

Pennwalt Corporation warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the risks referred to therein. **PENNWALT CORPORATION MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.
