

4581-309

DECCO APPLE COATING WT-45

For prevention of scald on apples in storage.

Active ingredient ... (diphenylamine)	0.5%
Inert ingredients	99.5%

DIRECTIONS:

For post-harvest application on apples within seven days after picking. To be used without dilution and applied by spraying at the rate of one gallon of coating to 10,000 pounds of apples.

DANGER:

KEEP OUT OF REACH OF CHILDREN

Avoid contact with skin and eyes. Do not use treated apples in the manufacture of apple pomace for use in livestock feed. Do not apply to fruit which received pre-harvest treatment of diphenylamine. Do not wrap treated apples with impregnated wrappers. Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place. Do not contaminate water by cleaning of equipment or disposal of waste.

Net Contents:

55 gallons. USDA Reg. No. 2792-18
