Proposed label
 Not for this use in California

TOPSIN® M 70W

EPA Registration No. 4581-322

REVISED DIRECTIONS FOR USE ON BEANS

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CROP	DISEASES	LBS/A	REMARKS
Beans	Gray Mold (<i>Botrytis</i> sp.) White Mold (<i>Sclerotinia</i> sp.) Anthracnose	1-2	Make first application when 10% - 30% of plants have at least one open bloom, and/or conditions are favorable for disease development. A maximum of 4 lbs. of product per acre (2.8 lbs. a.i.) per crop cycle may be used, with a minimum 7 day spray interval. Do not apply to snap, or lima beans within 14 days of harvest. Do not apply to dry beans within 28 days of harvest.

This label contains information which is more current than the Federal label. Observe all applicable precautions and limitations on the Federal label, except as described above.

This label and the Federally registered label must be in the possession of the user at the time of pesticide application.
