MICROTHIOL® SPECIAL

EPA Registration No. 4581-373

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR USE ON TURF AND GRASS

Commercial, including but not limited to golf courses, sod farms, and grass grown for seed

PEST	RATE LBS/A	DIRECTIONS
Rust Powdery Mildew	3 - 10	Applications should begin at the very first sign of disease, or as a preventative when conditions favor disease. These are explosive diseases and are very difficult to control once fully established. Repeat applications as needed. Tank mixing with systemic fungicides will improve control and help in a resistance management program with these fungicides.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. This label and the EPA-registered label must be in the possession of the user at the time of pesticide application.
