Supplemental Label

TOPSIN® M 4.5F

Fungicide

(EPA Reg. No. 4581-405)

Revised Use Directions for Sugar Beets

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DISEASES	FL. OZ/ ACRE	REMARKS
Cercospora Leaf Spot (<i>Cercospora</i> sp.)	10 - 20	Apply when conditions become favorable for disease development before the disease appears and follow with a non-benzimidazole fungicide within 14 days of application or as needed.
Powdery Mildew (<i>Erysiphe</i> sp.)	10 - 20	Apply as soon as disease symptoms appear and repeat at 14-day intervals or as needed.

General Instructions:

Do not apply within 21 days of harvest.

Do not apply more than 2.1 lbs ai/season.

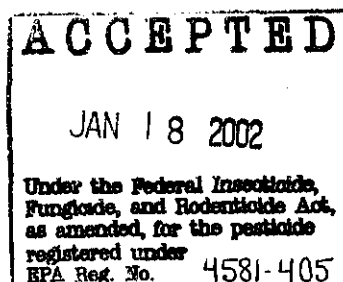

Resistance Management: TOPSIN M should not be used alone. Another non-benzimidazole fungicide should be used with TOPSIN M for disease resistance management.

All applicable directions, restrictions, and precautions on all EPA-registered labels are to be followed.

This label and the Federally registered label must be in the possession of the user at the time of pesticide application.
