SUBJECT: Topsin M 4.5 F
EPA Registration Number 4581-405
Your label amendment submitted October 30, 2001 to add foliar
application to potatoes.

Dear Ms. Clemmer:

The supplemental label for foliar application to potatoes, referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended is acceptable provided the following conditions are met:

1. Revise the label as follows:
 - a. Add the phrase "Supplemental Label" at the top of the page.
 - b. Add the following text above the sentence beginning "Observe all applicable precautions ...":
For crops without labeled uses of thiophanate-methyl, observe a 30-day plantback restriction.
2. In accordance with section 408 (b) (2) (E) (ii) of the Federal Food, Drug and Cosmetic Act (FFDCA), because anticipated or actual residue levels are being relied on for apples, bananas, beans, cucurbits, peaches and strawberries, the Agency is requiring, pursuant to subsection (f) (1), that you provide, five years after the date on which the tolerance is established, modified, or left in effect, and thereafter as the Administrator deems appropriate, data demonstrating that such residue levels are not above the levels so relied on. If such data are not so provided, or if the data do not demonstrate that the residue levels are not above the levels so relied on, the Administrator shall, no later than 180 days after the date on which the data were required to be provided, issue a regulation under subsection (e) (1), or an order under subsection (f) (2), as appropriate, to modify or revoke the tolerance.
3. This label change must be incorporated into your main label at the next printing or by February 1, 2004, whichever comes first.

4. Submit one copy of your final printed labeling before you release the product for shipment.

A stamped copy of the label is enclosed for your records. If you have any questions, please contact Lisa Jones of my staff by phone at (703) 308-9424 or by e-mail at jones.lisa@epa.gov.

Sincerely,

Mary L. Waller

Directions for foliar use on Potatoes

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Diseases	Fl Oz/ Acre	Remarks
White Mold <i>Sclerotinia sp.</i>	20 - 30	Make first application just prior to row closure. Repeat the application within 7-14 days and at 7-14 day intervals if conditions for disease development are favorable. Thorough coverage of the lower stems and branches is essential for disease control. Do not apply more than 80 oz product (2.8 lbs ai)/A/season. Do not apply within 21 days of harvest. May be tank mixed with other fungicides labeled for early and late blight control. Cerexagri does not recommend aerial application for control of this disease on this crop.

Observe all applicable restrictions, precautions, and limitations on the EPA-registered label.

This label and the EPA- registered label must be in the possession of the user at the time of pesticide application.

Dear Ms. Clemmer:

SUBJECT: Topsin M 4.5 F
EPA Registration Number 4581-405
Your label amendment submitted May 20, 2002 to add pistachios as a new use.

The supplemental label for pistachios, referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended is acceptable provided the following conditions are met:

1. Revise the label as follows:
 - a. Add the phrase "Supplemental Label" at the top of the page.
 - b. Add the following text immediately above the sentence beginning "Observe all applicable precautions ..."
For crops without labeled uses of thiophanate-methyl, observe a 30-day plantback restriction.
2. In accordance with section 408 (b) (2) (E) (ii) of the Federal Food, Drug and Cosmetic Act (FFDCA), because anticipated or actual residue levels are being relied on for apples, bananas, beans, cucurbits, peaches and strawberries, the Agency is requiring, pursuant to subsection (f) (1), that you provide, five years after the date on which the tolerance is established, modified, or left in effect, and thereafter as the Administrator deems appropriate, data demonstrating that such residue levels are not above the levels so relied on. If such data are not so provided, or if the data do not demonstrate that the residue levels are not above the levels so relied on, the Administrator shall, no later than 180 days after the date on which the data were required to be provided, issue a regulation under subsection (e) (1), or an order under subsection (f) (2), as appropriate, to modify or revoke the tolerance.
3. This label change must be incorporated into your main label at the next printing or by February 1, 2004, whichever comes first.
4. Submit one copy of your final printed labeling before you release the product for

shipment.

A stamped copy of the label is enclosed for your records. If you have any questions, please contact Lisa Jones of my staff by phone at (703) 308-9424 or by e-mail at jones.lisa@epa.gov.

Sincerely,

Mary L. Waller

DIRECTIONS FOR USE ON PISTACHIOS

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISEASES	RATE FL OZ/ ACRE	DIRECTIONS
Shoot Blight (<i>Botrytis</i> , <i>Botryosphaeria</i>)	30 - 40	Apply at bloom. Do not exceed 40 oz product (1.4 lbs ai)/A per season. Apply in a minimum of 100 gallons per acre by ground or 20 gallons per acre by air. For aerial application, fly over every row or center. For pistachios only: do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 3 days unless appropriate PPE for early entry is worn.

Observe all applicable precautions, restrictions and limitations on the EPA-registered label.

This label and the EPA-registered label must be in the possession of the user at the time of pesticide application.
