Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision No. D-401148) is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. A Primary Eye Irritation Study will be generated in accordance with EPA's In Vitro Pilot Program by using one of the three assays (the Bovine Corneal Opacity and Permeability test, EpiOcular model, or the Cytosensor Microphysiometer assay). The data will be submitted for review by September 15, 2010. In the interim, the Agency is accepting the signal word and modified "Precautionary Statements" supporting category III language based on primary eye irritation because we believe the new study will confirm toxicity category III classification.
2. If the study is found unacceptable, you must submit a revised label supporting toxicity category II signal word and precautionary statements thirty (30) days from the Agency letter notifying you the status of the study.
