Spray 5 to 10 seconds for average room (1,000 cu ft). Keep nozzle three feet from surfaces. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Before spraying cover exposed food and utensils.

TO KILL ROACHES, WATERBUGS, CRICKETS & ANTS: Spray baseboards, cracks, crevices, moist areas and openings around sinks and pipes and other hiding places, hitting the insects directly. Spray ant hills and ant trails over window and door sills and other locations. Repeat as necessary for control.

CAUTION: Never set container on stoves, radiators or places where temperature will exceed 120 F., which may cause it to burst. Never puncture container or throw in fire or incinerator. May stain finished surfaces and fabrics if sprayed too closely.
