

hospital strength

SHAKE WELL BEFORE USING

This powerful quaternary ammonia formula may be effectively used as a surface disinfectant or as a deodorizing space spray. It aids in the reduction of airborne, odor-causing bacteria and refreshes the air with a pleasant, clean fragrance. It kills pathogenic organisms such as Staphylococcus aureus, Salmonella choleraesuis and Pseudomonas aeruginosa. Especially formulated for use in hospitals, nursing homes, offices, schools, restaurants, food processing plants and households. Will not harm surfaces. Acts as a non-selective odor suppressant and will not impair olfactory senses.

DIRECTIONS: Before using, food products and packaging materials must be removed from the room or carefully protected. After use food contact equipment and utensils must be thoroughly rinsed with potable water.

DIRECTIONS: To use as a surface disinfectant. Hold dispenser 6 to 8 inches from surface and spray surface 5 to 6 seconds until thoroughly wet. Repeat as needed. Will not harm telephones, door knobs, night switches, bed springs, empty diaper pails, toilet seats, sink tops or desk tops. Pre-clean bed pans and garbage containers before spraying.

DIRECTIONS: To use as a deodorant space spray. Hold dispenser upright, pointing valve orifice away from face. Spray into air 3 to 5 seconds toward center of room. Air freshening and deodorizing should be repeated periodically depending on existing conditions.

ACTIVE INGREDIENTS:

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides	0.1%
n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chloride	0.1%
Isopropanol	53.0%
Triethylene glycol	6.0%
Essential oils	0.5%
INERT INGREDIENTS	40.3%

Contains - Sodium Nitrite

WARNING: Contents under pressure. Never set container on stoves, radiators, in direct sunlight, nor place where temperature will exceed 120 degrees Fahrenheit, which may cause it to burst. Do not puncture or throw container into fire. Avoid getting spray concentrate in eyes. In case of contact, flush with water. If irritation persists consult physician. Avoid contamination of food.
