KIL-O DAIRY CATTLE SPRAY

WITH REPELLENT ACTION

DIRECTIONS FOR USE

To develop a residual repellency to stable flies, horn flies, mosquitoes and gnats on dairy cows, apply 1 to 2 ounces of DAIRY CATTLE SPRAY to each animal for a three day period. The spray should be applied with a good sprayer so that the entire animal's body has been uniformly covered. Special care should be used in spraying the legs, belly and shoulders. Avoid areas around the nose, eyes and mouth. Avoid wetting the hide. Spray in the same manner again after two days have elapsed and every second day thereafter or when insects again disturb the animal. Be sure the teats and udder are washed with warm water prior to milking. Calves should be sprayed very lightly once a day instead of attempting to build up a residual repellency by spraying more heavily.

For control of lice on livestock, spray the animals with 2 ounces of DAIRY CATTLE SPRAY. Immediately rub the spray into the hair, paying particular attention to infested areas. Repeat as necessary, but not more frequently than once every three weeks.

To kill flies, mosquitoes and gnats in the barn prior to milking, close all doors and windows and direct the spray toward the ceiling. The barn should remain closed for 10 to 20 minutes. Sweep up and destroy fallen insects. Repeat as necessary.

To protect livestock from attack by fleas, spray bedding and walls of pen, particularly cracks and crevices. Repeat treatment frequently until adequate control is obtained.

In a complete fly control program these sprays should be used in combination with sanitary measures.

CONTAINS MGK REPELLENT 326

EPA Reg. No. 4591-62

REG. TRADE MARK - MGK CO., MPLS., MINN.

ACTIVE INGREDIENTS	100%
Pyrethrins05%
Technical Piperonyl Butoxide*10%
N-octyl bicycloheptene Dicarboximide**16%
Di-n-propyl isocinchomeronate***20%
Petroleum distillate	99.49%

*Consists of 0.06% (butylcarbityl) (6-propylpiperonyl) ether and .02% other related compounds.

**MGK 364 Insecticide Synergist, U.S. Pat. Nos. 2,545,283 and 2,545,287.

***MGK Repellent 326, U.S. Pat. No. 2,757,120.

CAUTION

KEEP OUT OF REACH OF CHILDREN
HARMFUL IF SWALLOWED.

Avoid contamination of milk and milk handling equipment. Avoid overspraying which will result in wetting the animals' hides.

WARNING: Combustible Mixture. Do not fog into or near an open flame. Store in cool place, keep container closed and do not pour, spill or store near fire or flame.

This product is toxic to fish. Do not contaminate water by cleaning of equipment, or disposal of wastes.

Avoid contamination of feed and feedstuffs.

Do not reuse empty containers. When container is empty wash out, rinse and destroy by puncturing and crushing or transport to professional drum reconditioner.

ACCEPTED
1973
MAY 11 1973

KILLS and REPELS

- HORN FLIES
- STABLE FLIES
- MOSQUITOES
- GNATS

When properly applied, repellent effect against above insects will last two days.
