

APEX
MOTH CAKE

Entirely remove cellophane from opposite side of cake. Hang or place cake above garments to be protected. Thoroughly brush articles before storing. Use at the rate of one APEX MOTH CAKE to every 36 cubic feet of tightly enclosed space. If used in clothes closet, keep closet tightly closed. If reopened, add additional APEX MOTH CAKE and reseal. Area under fumigation should be kept tightly closed at all times and for at least 7 days after addition of this product.

Active Ingredient: Paradichlorobenzene 100%
