DUPONT KLOBEN

NEBURON WEED KILLER WETTABLE POWDER

Directions:
For use on (1) 2,4-D (2,4-dichlorophenoxy-1-methyl ester) 50%
and (2) 2,4-D (2,4-dichlorophenoxy-1-methyl ester) 50%
in water.
Use 1 lb. per 100 gal. water.
General Information:
Neburon Weed Killer is recommended for use on commercial
crops of certain steady growing plants for the control of annual
weeds. It is a wettable powder to be mixed in water for spray application.

Apply to the surface of the ground. Effects will not become apparent until the
chemical has been carried into the root zone of the germinating weeds by rain
water. It is non-corrosive, non-volatile, non-flammable and is low in toxicity to man
and animals under recommended conditions of use.
Unless otherwise directed, do not treat any area which may be replanted to any
crop within one year of treatment as crop injury may result.
Neburon should be used only in accordance with recommendations on the label
or in separate Du Pont Agr. Prod. Bulletin available through local dealers.

NET 5 LBS.

Precautions:
Read label and apply carefully.
For small areas, apply uniformly at the rate
of 2 oz. per 100 gal. of water. For large areas,
apply 1 lb. per 100 gal. of water. Apply just prior to germination
and growth of annual weeds. Best results are obtained
if the herbicide is mixed by spraying with the
upper layer of soil within two weeks after application.
Do not apply more than once per year or crop to
any one area.
Do not apply around water, replanted
crops, or other plants which are not intended
to be killed.
First Aid:
Avoid breathing dust or spray mist.
Avoid contact with skin, eyes, and clothing.
Important: Do NOT apply Neburon to
vegetables, or fruits or trees exposed to
their foliage from other plants, or to
trees where their roots may extend, or to
crops where the chemical may be applied or
carried into contact with their roots. Do NOT
use on corn, wheat, sorghum, flax, alfalfa,
or similar crops. Neburon will kill any weeds
or spray to desirable plants. Do NOT combine
with domestic wastes. Keep away from contact with
firearms, ammunition, explosives, and acids.
Thoroughly clean application equipment after
use. Do NOT use equipment without "Neburon"
has been applied for spraying herbicides, fire-
fighters, & herbicides as plant injury may result.
NOTICE TO BUYER: SELLER makes no warranty of
any kind, express or implied, concerning the use of
the product. BUYER assumes all risk of use or handling
whether in accordance with directions or not.
