## ALGICIDE CONCENTRATE 400

**Active Ingredient:**

Alkyl (C<sub>14</sub>, 58%; C<sub>16</sub>, 28%; C<sub>12</sub>, 14%  
dimethyl benzyl ammonium chloride .....40.00%

Inert Ingredients: .....60.00%

Total Ingredients: 100.00%

**FOR SWIMMING POOL USE ONLY**

Manufactured by

**Hunter Industrial Chemicals, Inc.**

Houston, Texas 77021

### **DANGER:**

**KEEP OUT OF REACH OF CHILDREN**

(See first aid statement & other precautions on back panel.)

Net Contents: 1 Quart EPA Reg No. 4651-11

This Algicide is formulated to complement swimming pool water being treated with normal chlorine systems. It is especially effective against growth of algae and, being non-volatile, aids in maintaining pool water clarity and sparkle. The residual effectiveness of algicide tends to stabilize the total chemical treatment system.

This Algicide is compatible with all chemicals normally used in swimming pool maintenance; however, in its concentrated form, this chemical should not come in contact with high concentrations of chlorine. **DO NOT MIX ALGICIDE AND CHLORINE TOGETHER** when adding to the pool. These chemicals should be handled separately. This Algicide is economical, efficient and stable.

### **DIRECTIONS**

For an initial application or when pool water is changed, use one quart per 25,000 gallons of water.

For maintenance, use one ounce per week per 5,000 gallons of water. After each rain of consequence, add one ounce per 5,000 gallons of water in addition to the above amounts.

The appropriate amount of this algicide should be added by pouring directly into the pool. More rapid distribution will be achieved by pouring a little of the specified amount into several areas of the pool. Recirculation will assure rapid dispersion.

**DANGER: KEEP OUT OF REACH OF CHILDREN. Corrosive.** Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

Rinse empty container thoroughly with water and discard it.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk or raw egg white. If these are not available, drink a large quantity of water. Avoid alcohol. Call a physician immediately.

Rinse empty container thoroughly with water and discard it.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

This product is toxic to fish. Keep out of lakes, streams, or ponds. Apply this product only as specified on this label.

#### **TO DETERMINE POOL CAPACITY**

**Rectangular Pools** - Length times width times average depth (in feet) times 7.5 equals gallons.

**Round and Oval Pools** - Long diameter times short diameter times average depth (in feet) times 5.9 equals gallons.
