DIRECTIONS

LACCO PENTA WEED KILLER is prepared for use as a top kill, non-selective, contact herbicide only. Non-crop areas such as roadsides, highway margins, right of ways, around commercial buildings, power plants, storage yards, and other installations, fence lines, parkways and other similar non-crop areas. For best results, use a spray, wetting the plants to the point of run-off. Do not apply to or allow this product to contact edible plants or other desirable vegetation.

Do not contaminate water used for irrigation or domestic purpose. Do not apply to areas underlined by roots of desirable trees and shrubs. Avoid spray drift to desirable plants. Coarse sprays are less likely to drift.

This product is toxic to fish and wildlife. Keep out of lakes, ponds, or streams. Do not contaminate water by cleaning of equipment, or disposal of wastes.

ANNUAL BROAD LEAF WEEDS: 1 gallon LACCO PENTA WEED KILLER in 20 gallons diesel oil or 6 gallons diesel oil plus 14 gallons water when weeds are 2 to 3 inches high.

ANNUAL AND PERENNIAL GRASSES AND PERENNIAL BROAD LEAF WEEDS: 1 gallon LACCO PENTA WEED KILLER in 20 gallons diesel oil or 6 gallons diesel oil plus 14 gallons water when new growth first appears. Repeat when regrowth is 2 to 3 inches long until control is complete.
