

FLAT HUE

CAUTION: COMBUSTIBLE MIXTURE

N.Y.F.D. C. OF A. #2200

DIRECTIONS

STIR WELL BEFORE USING

EXTERIOR USE. May be applied to exterior surfaces which have not previously finished surfaces. If the surface has been previously painted with a flat or semi-gloss finish, it may be applied directly to the surface as the flat hue will not adhere to the surface. Water may be used to clean the surface before painting. Apply with brush or roller. Do not apply to surfaces that are wet or that have been treated with a third coat that may be applied after the first coat has dried.

NOTE: This product is not intended for use on surfaces that are wet or that have been treated with a third coat that may be applied after the first coat has dried.

INTERIOR USE. May be applied to interior surfaces which have not previously finished surfaces. If the surface has been previously painted with a flat or semi-gloss finish, it may be applied directly to the surface as the flat hue will not adhere to the surface. Water may be used to clean the surface before painting. Apply with brush or roller. Do not apply to surfaces that are wet or that have been treated with a third coat that may be applied after the first coat has dried.

Do not apply to surfaces that are wet or that have been treated with a third coat that may be applied after the first coat has dried. Do not apply to surfaces that are wet or that have been treated with a third coat that may be applied after the first coat has dried.

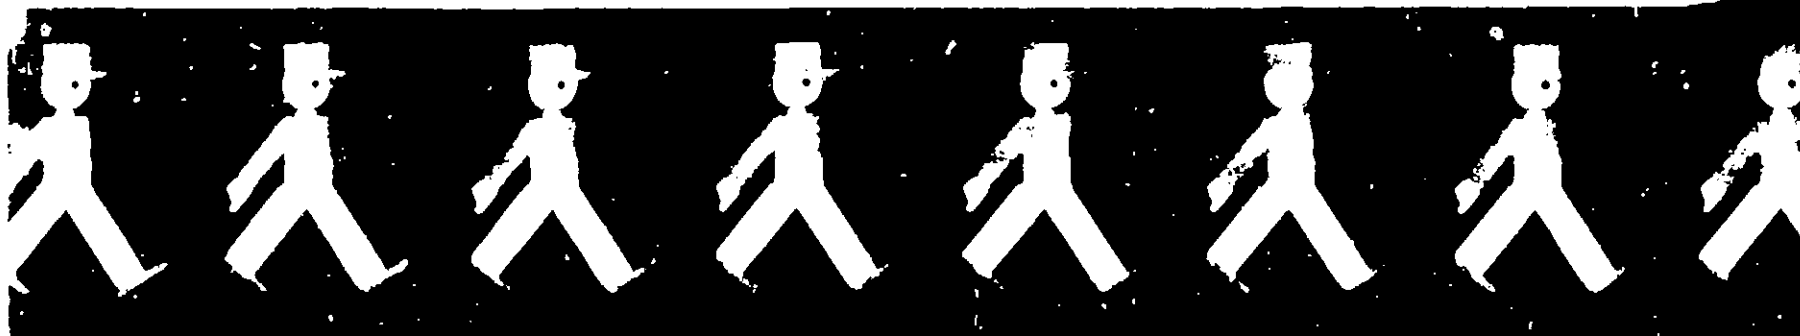

Caution: Do not use on surfaces that are wet or that have been treated with a third coat that may be applied after the first coat has dried.

Coverage: 200 to 300 square feet per gallon depending on the surface.

Thinning: Thin with water to the consistency of milk.
