GENERAL FRESH-PINE DIRECTIONS FOR HOUSEKEEPING: Use 1 tablespoonful Fresh-Pine to 1 quart of water. Removes dirt and grime from wood-work, venetian blinds, walls, windowsills, etc. No soap or rinsing necessary. Does not stain.

FLOORS. Use 1 tablespoonful Fresh-Pine per quart of water for cleaning linoleum, asphalt or rubber tile, wood or cement floors. Just mop or wipe to remove dirt, grease, etc. Floors will be left clean and sanitary without any added soap or rinsing needed.

KITCHEN. A little Fresh-Pine down the drain of sink and tub cuts grease and ends foul odors. Use diluted 1 tablespoonful per quart of water to wipe out refrigerator, storage cabinets, oven, etc. Air for 15 minutes before replacing food.

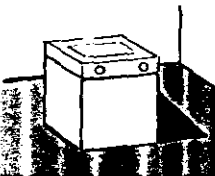

BATHROOM. A few drops of Fresh-Pine in toilet bowl will effectively deodorize. To clean and disinfect tub, toilet seat, urinal, shower floor, etc., use 1 tablespoonful per quart of water.

PETS. Use 1 tablespoon per quart of water for dog's bath, bedding, washing kennel, etc.

LAUNDRY. 1/2 cup Fresh-Pine with "PONTAMINE" added to the tub or washing machine of soapy water will give whiter and brighter sanitized clothes. Safe for finest fabrics: cottons, rayons, nylons, and woolsens.

Whiter washes now made possible with DuPont "PONTAMINE." A fluorescent whitener or optical bleach now being used extensively by the laundry industry to give brighter, whiter clothes. Removes that gray dingy look. Harmless to the most delicate fabrics.

BABY'S THINGS. Wash with 4 table-spoons Fresh-Pine per gallon of water for sweet smelling, hygienically clean clothes, diapers, etc. To deodorize and sanitize nursery, highchair, crib, toys, buggy, etc. —wipe regularly with 1 tablespoon Fresh-Pine per quart of water.

SICK ROOM. Use 5 or 6 tablespoons per gallon of water for washing personal articles, bedding, towels, walls, floors, and furniture.

DEODORANT or SPRAY. Use Fresh-Pine full strength sprinkled or sprayed on garbage. Scrub containers weekly. Mix with 1 or 2 parts water for an effective deodorant spray. Leaves a fresh piney odor. Wilbert's Fresh-Pine is non-injurious, non-caustic, and non-corrosive, when used as directed.

Active Ingredients: 90%—Steam Distilled Pine Oil, Soap, Isopropyl Alcohol - Inert Ingredients: 10%—Water - Phenol Coefficient—5 F.D.A. against Bacillus Typhosus.
